

Elephant events – high awareness and high probability (e.g. International global banking shock causes Auckland housing market to crash).

Lion events – low awareness and high probability (e.g. NZ decriminalises all drugs, following Portugal's lead).

What is our present situation?

Where do we want to get to and when?

Swan events – low awareness and low probability (e.g. Extra-terrestrials land in Fiordland National Park).

Mouse events – high awareness and low probability (e.g. Ebola mutates into a virus as contagious as the flu, creating a global pandemic).
