The origin of Auckland's domestic tourism transactions compared to Wanganui's

Please note: Some regions contain cardholder-merchant relationship areas that are not defined as local by MBIE. Therefore domestic tourism can include spending made within the same region in some circumstances. For example, a cardholder residing in Palmerston North City who purchases from a merchant in the Wanganui District is defined as a domestic tourist, despite both the cardholder and merchant living in the Manawatu-Wanganui region. Refer to the excel sheet attached to the link above for a full list of local cardholder-merchant relationship areas.
