Thanks 9(2)(a),

Attached is a PDF version of that document marked as Final.

Regards

CAUTION: External sender

Good afternoon, 9(2)(a).

Thanks very much for the chat earlier today. I just wanted to let you know that I've authorised the draft V2 report to be made public on our website, without correction.

We can either put it up directly with a name change, or if you prefer to send us a version named "final" instead, I can get our administrator to post that instead.

Please let me know ASAP what you'd like to do, as she'll probably be putting it up early tomorrow morning.

Kind regards,

Subject: Draft Annual and 10 year reports for ERMA200223 for period ending 30th June 2020

Good afternoon,

Please find attached the draft Annual Report for the ERMA200223 approval for the period 1/07/2019 to 30/06/2020.

As previously there are some ethics reports in the supporting information to be added, these are in progress and at this stage should be available once approved by the Ruakura animal ethics committee at its meeting on the 3rd of September.

Also attached is the draft 10 year report for the ERMA200223 approval as required by Control 12 of the decision. A covering letter will be sent tomorrow.

This report contains some confidential sections which will need to be amended prior to public release for commercial sensitivity reasons.

As per previous years -The process we have normally followed with this report is to submit draft by due date, the EPA reviews and often asked questions or for further information.

We would respond to these and complete / confirm acceptance of draft elements of the report. EPA confirms it is satisfied the report meets requirements and we confirm it is in its final version.

I send a PDF version which EPA uploads to your website (we may need to take some names out of public version), we are advised of planned upload date so both communications teams can be ready for any query's (normally from GE Free).

Regards
