### About the COVID-19 Alert System

The Alert Levels are determined by the Government and specify the public health and social measures to be taken in the fight against COVID-19. You can find further guidance on this website ([covid19.govt.nz](https://covid19.govt.nz)).

The measures may be updated based on:

- new scientific knowledge about COVID-19
- information about the effectiveness of control measures in New Zealand and overseas, or
- the application of Alert Levels at different times, for example, the application may be different depending on if NZ is moving down or up Alert Levels).

Different parts of the country may be at different Alert Levels. We can move up and down Alert Levels.

Services including supermarkets, health services, emergency services, utilities and goods transport will continue to operate at any level. Employers in those sectors must continue to meet health and safety obligations.

Restrictions are cumulative, for example at Alert Level 4, all restrictions from Alert Levels 1, 2 and 3 apply.
