Hi [Redacted]

I want to firstly thank you and your team for the detailed response. It is such a tricky area; so your detailed response was very much appreciated.

We have gone through your response and made all your suggestions. Other than using IRD in full, all your suggestions are in (we are using abbreviations in text; this was necessary due to the number of times we use MOH, so abbreviations were a must).

We have attached the relevant pages of the book as they currently stand. Easy changes are in red font, but can you have a closer look at numbers in green font (we wondered if you could double check four suggested figure changes as they are significantly different than what was originally there and Arne was worried you might have accidentally swapped the rows).

For your information:

- We have reported all figures in \$m (millions) to make them consistent (and thank you for identifying our error). Note: We have rounded these figures to ensure the total is correct.
- We have added a sentence in green font for you to run your eye over.
- The table numbers have changed.

If you could spend 30 minutes to check the changes, that would be great. It would be great if you can get any changes back to me by Friday.

Thank you again,

Wendy and Arne
