The information can only be released, including under the Official Information Act 1982, by persons with the appropriate authority.

National Adaptation Plan: Scope and Approach

Portfolio **Climate Change**

On 24 March 2021, the Cabinet Economic Development Committee:

Background

- 1 **noted** that on 16 December 2020, the Cabinet Business Committee invited the Minister of Climate Change to report back in March 2021 on the scope, objectives and process for progressing the proposed Climate Adaptation Act [CBC-20-MIN-0121];
- 2 **noted** that adaptation planning, and the implementation of adaptation actions, is a requirement of New Zealand, as a Party to the Paris Agreement, under its Article 7;
- 3 **noted** that the government has a statutory obligation under the Climate Change Response Act 2002 to publish the National Adaptation Plan by August 2022;

Scope of the National Adaptation Plan

- 4 **noted** that:
 - 4.1 the National Climate Change Risk Assessment (the Risk Assessment), published in August 2020, defines 43 risks, 10 of which are classified as most significant;
 - 4.2 there is a statutory obligation for the National Adaptation Plan to respond to (at least) the most significant risks;
- 5 **agreed in principle** to the 43 risks from the Risk Assessment being in scope for the development of the National Adaptation Plan, subject to further refinement in the action planning phase and after public consultation;
- 6 **agreed in principle** to the strategic direction of the National Adaptation Plan, attached as Appendix 1 to the paper under DEV-21-SUB-0049, subject to further refinement as a result of engagement and consultation;

Approach to developing the National Adaptation Plan

- 7 **noted** that the expertise and levers to address the risks in the Risk Assessment are held across Ministerial portfolios and agencies;

- 8 **agreed** that lead agencies will lead the development of outcomes-focused action plans, as outlined the following table:

Outcome-focused action plans	Lead agencies
1 Natural environment	<ul style="list-style-type: none"> Ministry for the Environment Ministry for Primary Industries
2 Homes, buildings and places	<ul style="list-style-type: none"> Ministry for Business, Innovation and Employment Te Tūāpapa Kura Kāinga - Ministry of Housing and Urban Development
3 Infrastructure	<ul style="list-style-type: none"> Te Waihanga
4 Communities	<ul style="list-style-type: none"> Department of Internal Affairs Te Puni Kokiri
5 Economy and financial system	<ul style="list-style-type: none"> Ministry of Business, Innovation and Employment The Treasury

- 9 **noted** that the development and implementation of action plans will require the involvement of many agencies, as outlined in Appendix 3 to the paper under DEV-21-SUB-0049;
- 10 **invited** the Minister of Climate Change to report back to Cabinet for approval of the draft National Adaptation Plan prior to public consultation;
- 11 **noted** that the Minister of Climate Change will report back to Cabinet with an oral item to confirm detailed proposals of the role of the Prime Minister's Climate Response Ministerial Group, which is informed by the government's obligations under the Climate Change Response Act 2002 (and includes publishing the National Adaptation Plan);
- 12 **noted** that agreeing in principle to the strategic direction now also provides the opportunity to explore an indigenous worldview as the lead worldview for developing the National Adaptation Plan;
- 13 **noted** that some of the actions that will be included within the National Adaptation Plan will be funded through existing appropriations, and that others may require additional funding to implement.
