Policy needs to be detailed, comprehensive and coordinated to be successful how you describe it politically is a separate matter. — Jamie Dimon, Chairman and Chief Executive Officer of JPMorganChase, Chairman and CEO Letter to Shareholders: Annual Report 2024 (2025) (p.20) We've got no money, so we've got to think. - Ernest Rutherford, New Zealand physicist We need to be on our guard against both those who make over-confident claims, and at the other extreme, deliberately try to sow misunderstanding by unduly exaggerating uncertainty. We should expect trustworthy communication, in which conclusions are drawn with humility and uncertainty and are proclaimed with confidence and empathy ... We cannot avoid uncertainty. So we need to embrace it, be humbled by it, and even try to enjoy it. - David Spiegelhalter, *The Art of Uncertainty* (2024) (p.428) [T]he best performing agencies are clear about their role and purpose, enjoy strong internal leadership, and as a result can enlist the active support of all those outside the agency who are necessary to that agency, delivering the most it can for New Zealanders. - Iain Rennie, State Services Commissioner (2008-2016). Currently Chief Executive of and Secretary to the Treasury (2024-). Getting to Great: your map to navigating the straits of internal leadership (2014) (p.i)

To understand the right way to get a project done quickly, it's useful to think of a project as being divided into two phases. This is a simplification, but it works: first, planning; second, delivery. The terminology varies by industry—in movies, it's 'development and production'; in architecture, 'design and construction'—but the basic idea is the same everywhere: Think first, then do.

Preface

In terms of improving the status quo, the Institute's GDS Index is a failure. We had hoped department chief executives would work together to provide a public register of operational and archived government department strategies (GDSs). However, we have not been able to get traction on this idea, or even acknowledgement that this is important work for Ministers to oversee, and department chief executives to execute.

Effective strategy helps government departments solve challenging problems, which is why GDSs are such important instruments for managing the long-term interests of New Zealanders. Despite this, there is no designated government institution that regularly reviews GDS content and that the public can engage with to discuss the content of a GDS or complain about a department failing to consult with stakeholders. There is no central register that collates all GDSs on a single platform, which would enable strategies to be viewed together, allowing interested parties to identify where repetition or synergies exist or where there are strategic gaps/conflicts. There are no set criteria for how a GDS should be written and what it should include. As a result, this important policy instrument has few feedback loops, little transparency and minimal accountability. This is surprising for five reasons:

- 1. GDSs are expensive to generate, often requiring external expertise and public consultation.
- 2. GDSs drive change over long periods, often spanning successive governments.
- 3. GDSs are public documents. Not only do they provide a window into the workings of government, but they build on the thinking of the public through public engagement. The GDS drafting process is an opportunity to crowd-source ideas, generate consensus and collaborate with the wider community (including businesses, philanthropists and local authorities).
- 4. GDSs are critical instruments able to bring about change. They track and describe the means to desired ends. However, if there is no due diligence as to their content, structure and review, they may operate as blunt instruments delivering more harm than good to the public by using valuable resources but failing to deliver any tangible outcomes.
- 5. During times of rapid change, traditional governance models come under pressure. Anticipatory governance is an emerging tool that integrates foresight and strategy. Government needs to not only respond to present challenges but anticipate and shape future possibilities. GDSs, if managed well, are a key part of the solution.

The purpose of the 2024 Government Department Strategies Index Handbook – He Puna Rautaki (the Handbook) is twofold. First, it aims to help departments, and government more generally, develop an integrated and streamlined approach to strategy documents (e.g. removing repetition, unclear language and misalignment within and between departments), and ultimately increase the usability and transparency of these documents for the public.

Second, it is intended to make GDSs more accessible to the public, empowering citizens to work with government to achieve shared goals, improving public trust and enabling citizens to evaluate and critique strategies' effectiveness.

As a GDS is designed to manage significant issues of the day, a list of GDSs since 1994 provides a historical map of emerging and ongoing issues (see List B on p.259). This history is often lost due to the processes of government. Once a GDS is no longer operational, it tends to be removed from the department's website, so lessons may not be learned and insights not gained.

The Handbook's name in te reo Māori, He Puna Rautaki, means the spring of profound strategic thinking. This seems incredibly appropriate given the Handbook assesses whether sufficient information is available in GDSs for readers to make a judgement on the quality of the strategies. It does not, itself, judge the quality of strategies.

Thank you to everyone that helped with this year's index, including the many officials who answered our Official Information Act requests. A soft copy of the 2024 Handbook, Working Paper 2025/01 – Methodology for the 2024 Government Department Strategies Index (the 2024 Methodology) and Working Paper 2025/02 – Analysis of Climate Change in Government Department Strategies as at 31 December 2024 can be found on our website, alongside an interactive table and a downloadable spreadsheet of all 195 GDSs (and PDFs of the GDSs).

Wendy McGuinness Chief Executive

Welcome to the 2024 GDS Index

Introduction

The GDS Index contains a detailed analysis of each department's strategies. Together, the 195 GDSs in operation as at 31 December 2024 highlight key aspects of the government's policy direction and priorities. Other policy instruments exist, but GDSs are significant. Although some GDSs are required by law, most are the result of a specific instruction from a Minister of the Crown or are instigated by chief executives (generally to fulfil their role as set out in law and in their employment contracts).

Importantly, GDSs cost a great deal of money. As illustrated in the strategy pyramid in Figure 1, when purpose (mission, values and vision), strategy (strategic intent, drivers and enablers) and execution (targets and initiatives, performance indicators and strategy map) are clear, targeted and aligned, they are highly likely to deliver value for money.

Hence, strategy is the bridge between purpose and execution. A strategy without a clear purpose or method of execution cannot be easily assessed, tested, monitored or refreshed. If GDSs lack regular oversight, particularly during times of uncertainty, they risk becoming irrelevant and therefore a waste of money. However, the biggest cost to society is the missed opportunity to design and implement a strategy that delivers significant outcomes and creates strong building blocks for the future.

Decisions to create/add or decommission/archive GDSs should reflect changes in the goals and ambitions of the Government of the day and reflect emerging challenges and opportunities (e.g. AI, space exploration, bullying on social media, fentanyl, security, diabetes, access to critical materials and rare earths, etc.). The case study on preventing diabetes in young people (see overleaf) illustrates why GDSs require a high level of proactive stewardship.

The GDS Index acts as a window for the public to look through to understand the workings of government and decisions of Ministers and chief executives. Citizens need to be able to:

- find GDSs
- understand them
- know who is responsible for them
- monitor their progress
- suggest changes to them, and
- lobby for the creation of new strategies.

If we want a stable and progressive democracy, it's critically important that government policies and practices are easy to access and engage with.

So that the Institute could deliver the 2024 GDS Index in a timely manner, we asked departments to advise what strategies were added or archived in 2024 (rather than undertaking our own preliminary research). This enabled the Index to be published in April 2025.

Figure 1: The link between the Institute's strategy pyramid and the Transparency Scorecard

Key changes in 2024

Two new departments were established in 2024: the Ministry for Regulation (MFR) and the Social Investment Agency (SIA). They are among the seven departments that did not publish GDSs, and will be departments to watch in future indexes. The Ministry of Disabled People (MDP) was also a new department in the 2024 GDS Index. Although established in 2022, it was not added to Schedule 2, Part 1 of the Public Service Act 2020 until December 2024. Four GDSs were transferred to MDP in 2024, three from MSD and one from MOH.

Who is responsible for GDSs?

Put simply, Ministers direct policy; chief executives execute policy; and the Public Service Commissioner ensures the five public service principles stated in the Public Service Act 2020 are upheld.

Ministerial responsibility for policy direction is set out in Chapter 2: Ministers of the Crown: Appointment, Role, and Conduct of the 2023 Cabinet Manual.

The manual states:

Role and powers of Ministers

2.22 Collectively, Ministers direct the executive branch of government. Ministers:

- (c) take significant decisions and **determine government policy collectively**, through the Cabinet decision-making process;
- (e) determine both the policy direction and the priorities for their departments;
- (g) are supported by and (to varying degrees, depending on the nature of the entities concerned) direct officials in the public sector (see chapter 3);
- (h) are members of Parliament (see section 6(1) of the Constitution Act 1986) and are accountable to the House for their policies, their own performance, public spending, and the performance of entities within their portfolios; and
- (i) have a political role in maintaining government stability, which includes **maintaining close working relationships with other parties as issues arise**. [bold added]¹

The general responsibilities of the Public Service Commissioner and of chief executives are set out in s 11 and s 12(1) of the Public Service Act 2020. The purpose in s 11 states:

Purpose

The public service supports constitutional and democratic government, enables both the current Government and successive governments to develop and implement their policies, delivers high-quality and efficient public services, supports

the Government to pursue the long-term public interest, facilitates active citizenship, and acts in accordance with the law. [bold added]

The public service principles are: politically neutral, free and frank advice, merit-based appointments, open government, and stewardship. Stewardship, in particular, is highly relevant to the GDS Index:

Stewardship

- (e) to proactively promote stewardship of the public service, including of—
 - (i) its long-term capability and its people; and
 - (ii) its institutional knowledge and information; and
 - (iii) its systems and processes; and
 - (iv) its assets; and
 - (v) the legislation administered by agencies. [bold added]²

Although s 12(2) of the Act states that public service chief executives are responsible for 'upholding the public service principles when carrying out their responsibilities and functions', it also makes clear, in s 12(5), that chief executives 'are responsible only to the Commissioner for carrying out the responsibility to uphold the public service principles'. Given this, many of our recommendations, listed on p.12, are directed towards the Public Service Commissioner.

Why is stewardship important?

SMART is used as an acronym to establish criteria for setting effective objectives by making them Specific, Measurable, Achievable, Relevant and Time-Bound. This basic blueprint is missing in the majority of GDSs.

The section '2024 GDS Index: By strategy' (p.16) highlights the scale of the problem. Overall, the departmental system for managing GDSs is largely nonexistent and needs an overhaul: titles need updating to reflect their updated end date (18% have extended their end date but have not clearly stated this); publication dates and authorising signatures or names need to be included (37% were not signed); and collaboration should be improved (14% were jointly held by more than one department). Better stewardship would mean topics are regularly reviewed to identify a hierarchy of GDSs and whether there are key gaps or repetition. The GDSs in operation should also be regularly revisited to ensure the strategy is up to date and remains appropriate given emerging challenges and opportunities.

To summarise, the Institute considers that Ministers of the Crown should work harder to utilise GDSs as a tool to implement and respond to change, and that public sector officials should work together to engage the public; invite feedback; refine and refresh strategy documents; and report on progress.

Case study: Preventing diabetes in young people

Developing a well-informed and targeted strategy to prevent diabetes in young people is likely not only to result in healthier children who are better able to attend school, partake in sports and develop stronger social connections, but also to lower medical costs over their adult years (delivering up to 80 years of cost savings). This thinking comes from adopting the actuarial approach to social investment.3

There is clear evidence that a strategy to reduce diabetes is both urgent and important – and that a targeted strategy is possible. For example, a recent report from Aotearoa New Zealand's Public Health Advisory Committee made several recommendations to prevent diabetes in young New Zealanders. These included: community-based initiatives that improve access to nutritious, locally produced food; implementing fiscal policies such as a sugary drinks tax; and restricting unhealthy food marketing to children.4

However, strategy documents on this topic are non-existent. The closest strategy is *Living Well* with Diabetes: 2015-2020, which does not deal with prevention. The title indicates it came to an end in 2020; however, we learned through an OIA that it was extended as 'the goals and objectives of the strategy remain relevant', but no time limit was provided. Hence, in the 2023 GDS Index its duration was listed as not known.5

Many other departments also hold GDSs that have extended their end date. See list in Appendix 9 of the 2024 Methodology.6

Below we set out the findings of the 2024 GDS *Index*, followed by our ten recommendations for Ministers and officials.

Kev findings

A: Analysing additions and archived GDSs

It is important to assess the extent to which the 29 new GDSs reflect the overarching goals of the Government of the day. The Government's overarching goals for its term of office are to:

- (i) Build a **stronger**, more productive economy that lifts real incomes and increases opportunities for New Zealanders.
- (ii) Deliver more efficient, effective and responsive public services to all who need and use them - in particular, to restore law and order and improve health outcomes and educational achievement.
- (iii) Get the Government's books back in order and restore discipline to public spending.7
- (i) 'Stronger, more productive economy' Five of the new strategies in the 2024 GDS Index can be categorised as intending to drive economic growth. These are:
 - 1. [GDS04-08] Regional Deals Strategic Framework: 'Central and local government have powerful tools and mechanisms at their disposal to meet these challenges, unlock economic growth and boost productivity ...'

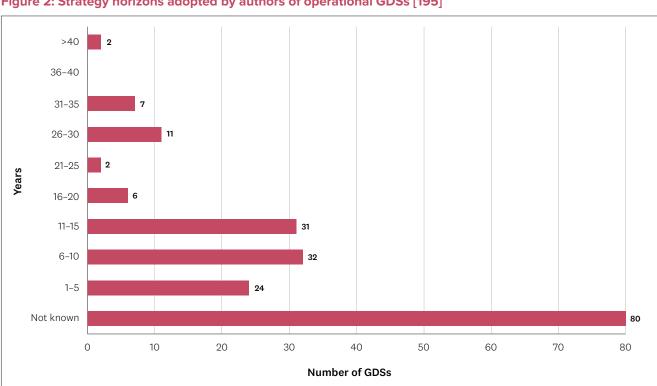

Figure 2: Strategy horizons adopted by authors of operational GDSs [195]

- [GDS16-13] Employment Action Plan: 'This
 Employment Action Plan sets out the
 challenges and trends in New Zealand's labour
 market, the Government's vision to support
 people into work and lift economic outcomes ...'
- 3. [GDS16-14] Major Events Strategy: 'By securing economic benefits from the major events we invest in, we will help to build a stronger, more productive economy and support investment and exports.'
- 4. [GDS16–16] Space and Advanced Aviation Strategy 2024–2030: 'This strategy will support the growth and development of New Zealand's space and advanced aviation sectors, contributing to enhanced productivity and a growing economy.'
- 5. [GDS26-04] Government Policy Statement on Land Transport 2024/25-2033/34: 'This GPS reintroduces a focus on increasing economic growth and productivity as a priority for land transport expenditure. Including economic growth and productivity as the overarching strategic priority in this GPS will help to ensure we meet our full potential as a nation.'
- (ii) 'More efficient, effective and responsive public services'
 - Arguably, we found only one relevant strategy: [GDS19–14] Approach to Improving Attendance in

- Schools: 'This policy supports the government's commitment to increase attendance in schools. It also supports commitments in the coalition agreement ... which states that parties will "prioritise reporting and enforcement action to reduce truancy" ...'
- (iii) 'Restore discipline to public spending'
 No obviously related strategies were found.

Note: 64 GDSs were archived in the Index. This includes 13 that no longer met the GDS criteria. Of these, 11

were transferred from a department to a Crown agency (MOH to Health NZ) and two were archived (MFE advised that one was a draft and MOE advised the other was a guide for early learning educators, and not a strategy).

B: Analysing all 195 GDSs in operation

Key observations from preparing the 2024 GDS Index are as follows:

By sector

 Four sectors' GDS profiles changed significantly over the past 12 months (see Figures 3 and 4).
 Firstly, the Health Sector archived five GDSs and transferred 14. Of the 14, 11 were transferred to Health NZ, two to MDP and one to MSD (the last three GDSs relate to the Social Services and Community Sector). MSD decided to archive the

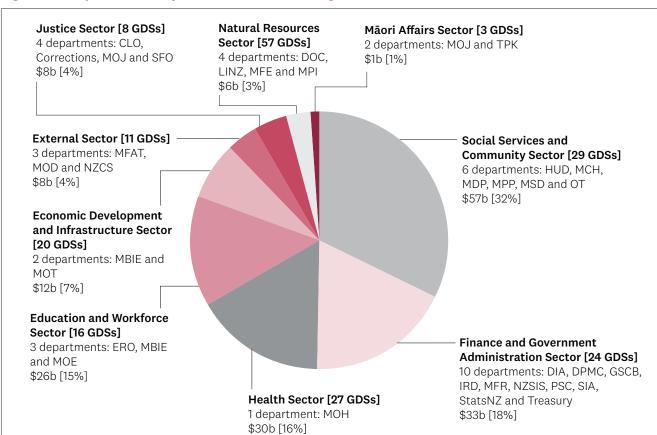

Figure 3: Analysis of GDSs by Sector for the 2024 Budget

Services Community Residential Support Services Strategy (2018). This means 19 Health Sector GDSs in total were removed from the index, while only two GDSs were added (See note in Figure 4). Secondly, the Economic Development and Infrastructure Sector and the Natural Resources Sector archived 14 and nine GDSs respectively (largely due to MPI and MBIE archiving five GDSs each), and each added eight GDSs. Most of those archived related directly or indirectly to climate change matters, e.g. biosecurity, scientific research, transition to a low-emissions economy,

GDS Where I Live; How I Live - Disability Support

Thirdly, the Social Services and Community Sector archived 11 GDSs (see List B, pp.259–277). MPP informed the Institute that all employment action plans for specific populations (e.g. disabled people, women, Pacific peoples) had been replaced with one overarching employment action plan across all populations, held by MBIE. This accounts for five of the 11 archived GDSs. Another three relate to housing.

the nationally determined contribution (NDC)

strategy and charging electric vehicles (see the

full list of archived GDSs in List B, pp.259-277).

In addition, there were four additions to the Social Services and Community Sector: one GDS (which related to disabled people) was transferred from MOH; two were updates of existing strategies; and one was a strategy published in 2021 that had not been incorporated into previous GDS Indexes. As these new GDSs are not addressing any new topics and are outnumbered by the archived GDSs, it would seem that this sector has a reduced role within the new government.

The other five sectors remain relatively unchanged. Hence, as illustrated in Figure 5, we have seen the first annual drop in GDS numbers.

2. The Natural Resources Sector had the largest number of GDSs (57). Interestingly, this sector

had one of the smallest levels of funding (\$6b, see Figure 3). In comparison, the Finance and Government Administration Sector received \$33b and had 24 GDSs. MOH had the largest number of GDSs out of all departments, with 27 GDSs. It is the only government department in the Health Sector, and received almost \$30b in appropriations.

By department

- 3. There is a notable decrease in collaboration between departments (only 27 GDSs were jointly held in the 2024 GDS Index compared with 37 in the 2023 GDS Index). This suggests there is less cooperation between government departments.
- 4. The department with the highest average GDS score (see the Transparency Scorecard, Figure 6) was MOJ (though they only had one GDS). The score was 80 out of a possible 96. At the lower end, 14 departments had an average transparency score of 50 or less. See Figure 7.

By strategy

- 5. The strategy with the highest score was [GDS14–05] *Aotearoa New Zealand's First Emissions Reduction Plan* with 90. Only 6% of all operational GDSs (11 of the 195) attained a total score of 80 or above. However, ten GDSs had a score of 20 or less. GDSs continue to fail to focus on core transparency elements: capabilities and resources, implementation and accountability, and alignment and authority (see bar graph at the bottom of p.16).
- 6. 77 GDSs expire by the end of 2030 and a further 35 have passed their proposed end date but remain operational. Therefore, it is likely that over 100 strategies will need to be reviewed before 2030. This will need to be budgeted for, both in terms of resources and funds.
- 7. A high proportion of strategies new to the 2021 GDS Index and the 2023 GDS Index were archived in 2024 (see List B). Of the GDSs archived in 2024, 52% (33 out of 64) were new to either the 2021 GDS Index or the 2023 GDS Index (see List B).

Table 1: GDS Index data sets over time

	Date of GDS Index (as at)	Total GDSs from previous GDS Index	GDSs new to the GDS Index this year	GDSs archived this year	GDSs in operation (See List A for 2024)	GDSs archived (See List B)	Total GDSs since 1 July 1994
2014 GDS Index	30 Jun 2014	290	0	-154	136	154	290
2015 GDS Index	30 Jun 2015	136	12	-14	134	168	302
2018 GDS Index	31 Dec 2018	134	111	-97	148	265	413
2020 GDS Index	31 Dec 2020	148	74	-23	199	288	487
2021 GDS Index	31 Dec 2021	199	61	-39	221	327	548
2023 GDS Index	31 Dec 2023	221	88	-79	230	406	636
2024 GDS Index	31 Dec 2024	230	29	-64	195	470	665

Note to Table 1

See Table 2.1 in the 2024 Methodology for notes to this table.

- 8. There are a diverse range of strategy horizons used across the 195 GDSs (between two and 41 years, the two GDSs with the longest strategy horizons being [GDS04–02] *Archives 2057 Strategy* and [GDS34–02] *He Tirohanga Mokopuna 2021 Combined Statement on the Long-Term Fiscal Position and Long-Term Insights Briefing*). See Figure 2.
 - Excluding the 80 GDSs whose durations are not known, 49% (56 out of 115) of GDSs have a duration of 1–10 years, 32% (37 out of 115) have a duration of 11–20 years, and 19% (22 out of 115) have a duration of 21 years or longer.
 - It is generally understood that a strategy with a short duration becomes, in essence, a plan that does not adopt a long view, whereas very long strategies (without regular reviews) can easily lose shape and deliver cost overruns. Bent Flyvbjerg and Dan Gardner, authors of *How Big Things Get Done*, describe strategies that have long horizons as being at risk of falling into a 'Window of Doom' 'Projects that fail tend to drag on, while those that succeed zip along and finish.' There needs to be a balance.
- 9. There are a small number of one-page strategies (2% [3 out of 195]), and a few very long strategy documents. The average number of pages is 41. However, from our perspective, it is not about length, but about content does the document communicate the approach clearly and concisely, in particular, the why, what, and how?
- 10. 32 GDSs (16%) were discussed in legislation. In the 2023 GDS Index, the figure was the same, but the percentage was lower (14%); this change in percentage is due to a reduction in the overall number of GDSs. Requiring in law that a strategy be published is clearly a useful mechanism for Parliament to ensure strategies are developed, consulted upon and made public. Last year, we raised the issue of whether such GDSs might come under the governance of MFR. MFR has advised that it does not have a stewardship role for all GDSs, but has an interest, as a consumer, in specific GDSs during its reviews of where regulatory failures might exist. The Institute will raise this governance issue with the Minister for the Public Service and the Minister for Regulation.
- 11. There is little change in the consideration of climate change in the 195 GDSs in operation (see bottom of p.16). 105 GDSs failed to mention climate change (54%). Of the 90 that did mention climate change, 40 mentioned it in passing (21%), 25 provided a basic response without any specific detail (13%), and only 25 (13%) provided a detailed discussion on its impact and how the GDS will deliver better climate outcomes. This does not bode well for New Zealand.

Recommendations

Given our findings, the Institute puts forward ten recommendations for consideration.

Members of Parliament

- 1. Ministers, their associates, and spokespeople from political parties not in power (e.g. Labour spokesperson for Education) should all actively engage with GDSs. In particular, Ministers should request from departmental chief executives progress reports on each of the strategies that fit under their portfolio, and seek answers to questions about the extent to which strategies are reviewed, whether strategic gaps exist (e.g. no GDS exists on diabetes prevention for under-16-year-olds); whether there is repetition across strategies; and how the execution of the strategy could be improved through collaboration between departments and others.
- 2. Members of Parliament should consider making key strategies a requirement in law and table them in the House. Futhermore, a review clause should be included in law to guarantee stewardship of strategies over the long term (say every five years).

Public Service Commissioner

- 3. A review should be undertaken of the quality of anticipatory governance across the public service in order to strengthen strategy development and execution.
- 4. A guide should be developed on how to prepare a GDS.
- 5. Topics of the GDSs in operation should be reviewed to determine whether collaboration opportunities, strategic gaps or repetition exist.
- 6. A public register of GDSs should be published by the Public Service Commission (along the lines of the Companies Register).
- 7. An annual review of GDSs should be published by the Public Service Commission and tabled in the House.
- 8. All new GDSs in development should be required to consider climate change and to identify first, second and third level impacts.

Chief executives of government departments

- 9. GDSs with end dates that have already passed should be reviewed and updated with new expiry dates.
- 10. All departments should be required in their annual report to publish a list of GDSs in operation and a list of GDSs archived or transferred (with the name of the organisation transferred to) in the last 12 months.

2024 GDS Index: By sector

Figure 4: Change in GDSs between 31 December 2023 and 31 December 2024

Note: This figure illustrates total additions and deletions of GDSs between sectors but does not show transfers of GDSs between sectors. It includes two GDSs that were transferred from MOH: ([GDS18–01] *Disability Strategy 2016–2026* and [GDS18–02] *Whāia Te Ao Mārama 2018 to 2022 – The Māori Disability Action Plan*) to Ministry of Disabled People.

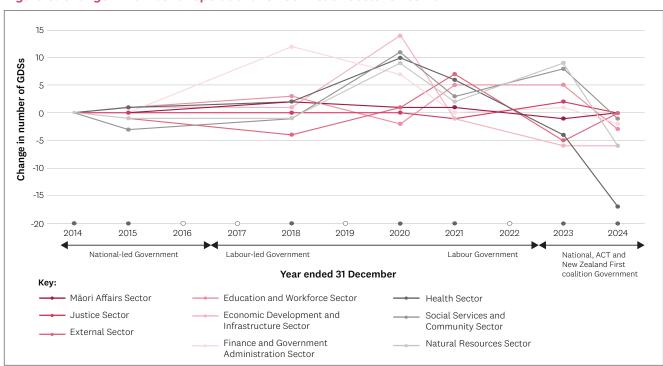

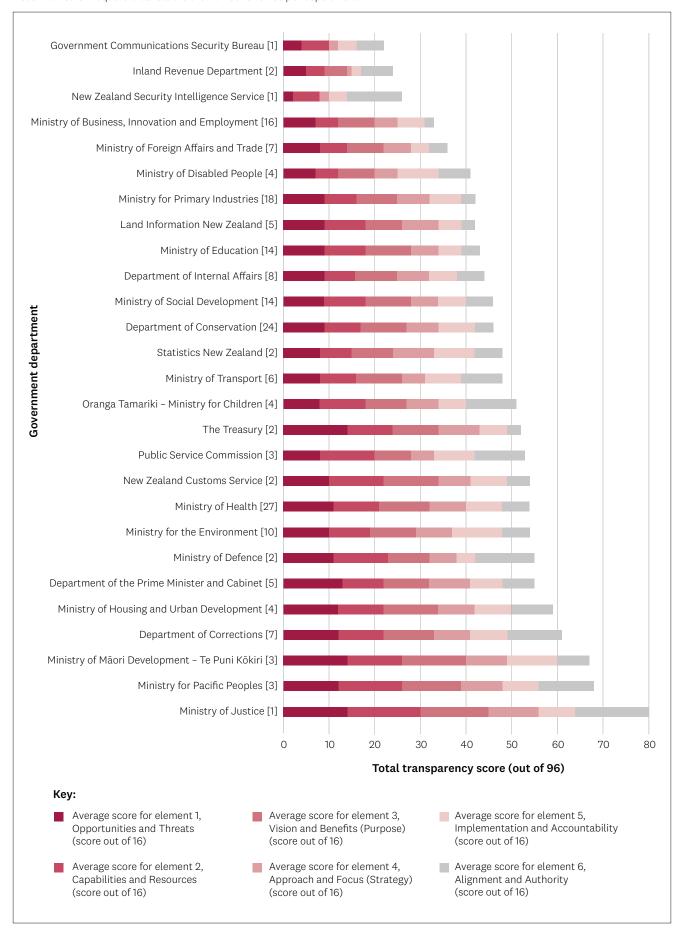

Figure 6: The six elements and 21 sub-elements in the Transparency Scorecard

2024 GDS Index: By department

Figure 7: Average transparency score of each department's GDSs by element

Note: Numbers in square brackets are the number of GDSs per department.

2024 GDS Index: By strategy

195

GDSs were in operation as at 31 December 2024.

In 2023, 230 GDSs were in operation.

101

operational GDSs had strategy maps. In 2023, 116 GDSs had

strategy maps.

665

GDSs have been published since 1994.

361 pages

was the longest: Aotearoa New Zealand's First Emissions Reduction Plan (May 2022).

It was also the longest in 2023, with 348 pages before being merged.

41 pages

was the average length of GDSs.

1 page

was the length of 3 GDSs.

14%

of operational GDSs (27 out of 195) were held by one department – MOH.

In 2023, 19% of operational GDSs (44 out of 230) were held by one department – MOH.

25 years

is the age of the oldest GDS: Karst Management Guidelines: Policies and actions (May 1999).

It was retrospectively added to the 2023 GDS Index and was also the oldest GDS in 2023.

55%

(108 out of 195) of GDSs are narrow in scope.

39%

(77 out of 195) of GDSs expire by the end of 2030.

18%

(35 out of 195) of GDSs have passed their end date.

Accountability

16%

of operational GDSs (32 out of 195) have a legal relationship of some form to New Zealand law by either being required to be published (must) or able to be published (may).

37% (72 out of 195) were not signed at all.

In 2023, 37% of operational GDSs (84 out of 230) were not signed at all, meaning no individual name is listed as being responsible for the strategy.

36% (70 out of 195) were signed by the Crown only.

In 2023, 39% of operational GDSs (89 out of 230) were signed by the Crown only.

61% (118 out of 195) of GDSs were not mentioned in the government department's annual report.

14% (27 out of 195) are jointly held.

The department that collaborated the most was DOC (5 times).

In 2023, 37 GDSs were jointly held. The departments that collaborated most were DOC and MPI.

7 departments did not hold any operational GDSs.

They are Crown Law Office, Education Review Office, Ministry for Culture and Heritage, Ministry for Regulation, Ministry for Women, Serious Fraud Office and the Social Investment Agency.

In 2023, 5 departments did not hold any operational GDSs.

GDSs by scoring element

GDSs by mentions of climate

44% (44 out of 99) recently published GDSs (2021 to 2024) did not mention climate change.

54% (105 out of 195) of all operational GDSs did not mention climate change.

In 2023, 54% (129 out of 230) did not mention climate change.

26% (50 out of 195) included a basic or detailed response to climate change.

In 2023, 26% (59 out of 230) included a basic or detailed response to climate change.

18% focused on mitigation

Department profiles

How to read the 2024 GDS Index

Individual department profiles can be found on the following pages. The 195 GDSs are arranged by department and in order of publication date. The order of departments aligns with the order given in Schedule 2 of the Public Service Act 2020. The profiles include key data on each GDS and the scores across the six elements of the Transparency Scorecard. These are further ranked by department, by sector and by all 195 GDSs.

There is one page for each GDS, divided into two columns:

- The left-hand column includes a quote from the GDS on the strategy's purpose, the Institute's understanding of the strategy (as the GDS did not always include a clear statement of the approach being proposed) and other key data specific to the GDS.
- The right-hand column contains the Institute's analysis. This provides the duration of the strategy and the year it ends (if known), the scope of its subject matter (narrow or wide), the extent to which the strategy has considered climate (climate intelligence), and its scores across the six elements of the Transparency Scorecard and consequent ranking by department, sector and all 195 GDSs.

Visit www.mcguinnessinstitute.org/gdsindex for more information on the operational GDSs, to view an interactive table and to download the latest spreadsheet of all key data that has been collected for the 2024 GDS Index.

The evolution of the GDS Index

The Institute first published a GDS Index in 2014, having developed a Transparency Scorecard for strategy documents, based on the concept of the Institute's 2012 strategy pyramid. Figure 1 (p.7) shows how the strategy pyramid connects to the Institute's Transparency Scorecard. Over the last ten years, the GDS Index has grown to incorporate analysis of strategy maps, climate change and more. Table 1 (p.11) shows the number of GDSs in each data set over time. See Appendix 1 of the 2024 Methodology for a complete list of GDS publications over the last decade.

The methodology for creating the GDS Index has also evolved considerably over time. The methodology for the 2024 GDS Index is set out in the 2024 Methodology. This methodology details the changes made since the 2023 GDS Index (Section 1.2, pp.5–6); changes to the GDS criteria over time (Appendix 2, pp.36–37); and which method was used to score each of the 195 GDSs currently operational (see right-hand column of Table A9.1, pp.79–93).

Karst Management Guidelines: Policies and actions

Purpose

'[T]o help DOC staff to more effectively manage karst and karst-like areas ... Karst usually occurs in limestone and marble, which has been sculpted by natural waters.' (p.3)

Strategy (to achieve the purpose):

The approach is to follow a series of actions grouped into the following categories:

- Overall actions to conserve the karst natural heritage of New Zealand
- Planning the management of protected natural karst areas administered by DOC
- Protection of karst areas from visitor impacts
- Concessions in karst areas
- Non-routine activities in karst areas
- Protection of karst on private land and other public land
- Staff training and capacity. (p.13)

New Zealand Subantarctic Islands Research Strategy

Purpose

'[M]aintaining or improving the condition of these islands by continuing with the programme of eradication of all introduced mammal species.' (p.5)

Strategy (to achieve the purpose):

The approach is to set guidelines for researchers desiring access to the Subantarctic Islands and to provide a tool for managers to decide on the appropriate research needed for each of the four research themes:

- Natural ecosystems
- Effects of introduced biota
- Human impacts and social interaction
- Abiotic sciences (sciences such as geology which study non-living systems). (pp.18-27)

New Zealand Sea Lion/Rāpoka Threat Management Plan

Purpose

'[P]romote the recovery and ensure the long-term viability of New Zealand sea lions, with the ultimate goal of achieving "Not Threatened" status.' (p.4)

Strategy (to achieve the purpose):

The approach is to focus on four workstreams:

- Engagement (including the establishment of a New Zealand sea lion/rāpoka forum, advisory group, and community liaison role within DOC)
- Direct mitigation
- Targeted research (such as research to better understand adult female nutritional stress and diet)
- Evaluation (such as conducting annual pup counts and tag re-sighting on the Auckland Islands). (pp.15-16)

Kiwi Recovery Plan 2018-2028 | Mahere Whakaora Kiwi 2018-2028

Purpose

'To reach 100 000 kiwi by 2030 through:

- Growing all kiwi species by at least 2% per year,
- · Restoring their former distribution and
- Maintaining their genetic diversity.' (p.17)

Strategy (to achieve the purpose):

The approach is to implement a number of objectives and actions that fall under a series of topics within four high-level themes:

- Management
- Research and innovation
- Engaging people with kiwi and their recovery, and
- Growing and sustaining the kiwi conservation effort. (p.18)

Strategic Priorities for Initiating Engagement in Advocacy Processes under the RMA 1991 and the Exclusive Economic Zone and Continental Shelf (Environmental Effects) Act 2012

Purpose

'To provide high-level direction for DOC staff when deciding whether to initiate engagement in statutory advocacy processes under the RMA and EEZA.' (p.2)

Strategy (to achieve the purpose):

The approach is to initiate engagement in:

- Planning processes under RMA or EEZA to protect the Priority Conservation Values
- Consent applications under RMA and EEZA where they may result in adverse effects on the Priority Conservation Values
- · Advocacy in RMA and EEZA processes where proposed provisions in Planning Documents or proposed activities:
 - have the potential to create inefficiencies or impose unnecessary obligations on DOC
 - are inconsistent with a DOC Management Planning Document. (p.4)

Towards a Predator Free New Zealand: Predator free 2050 strategy

Purpose

'Return the voices of the insects, bats, reptiles and birds back to the forests, farmland, towns, cities and coasts.' (p.9)

Strategy (to achieve the purpose):

The approach is to eradicate mustelids, rats and possums through six interconnected pathways:

- Whānau, hapū and iwi expressing kaitiakitanga
- Communities taking action
- Supporting the kaupapa through legislation and policy
- · Advancing knowledge, innovation and improvement
- Measuring and assessing the difference the department makes
- Moving from sustained predator control to eradication. (p.17)

Visitor Centre Strategy 2020-2025

Visitor Centre Strategy 2020-2025

Purpose

To create 'a clear visitor centre system ... ensuring a good visitor experience'.

Strategy (to achieve the purpose):

The approach is to improve visitor experience and enhance DOC's reputation by supporting visitors to have a safe and enjoyable experience on public conservation land, developing an effective visitor information system, and providing quality experience through visitor centres. (pp.11, 14–15)

National Plan of Action - Seabirds 2020

National Plan of Action Seabirds 2020

Purpose

'[W]ork towards zero fishing-related seabird mortalities.' (p.2)

Strategy (to achieve the purpose):

The approach is to:

- · Avoid bycatch
- Maintain healthy seabird populations
- Undertake research to manage direct effects of fisheries on seabirds
- Actively engage internationally to promote measures and practices that reduce impacts on New Zealand seabirds. (p.12)

Addressing the Threat of Toxoplasmosis to Hector's and Māui Dolphins: An action plan

Purpose

'[B]y 2035, reduce toxoplasma loading to the marine environment so that the number of dolphin deaths attributable to toxoplasmosis is near zero.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on two main goals:

- · Test and refine potential solutions that could reduce the threat from toxoplasmosis
- Fill knowledge gaps to establish greater certainty about both the extent of the problem and scale of the management action required.

Supporting these are 10 proposed actions, including:

- Trialling a technology solution to remove toxoplasma oocysts from waste/storm water
- Improving the certainty of the estimate of Hector's and Māui dolphin deaths from toxoplasmosis. (pp.4-5, 8)

Climate Change Adaptation Plan | He Whakamahere Hātepe Urutau mō te Huringa Āhuarangi

Purpose

'To guide DOC's strategic planning and management activities for increased resilience to climate change impacts.' (p.14)

Strategy (to achieve the purpose):

The approach is to implement short- and longerterm actions categorised by governance and management actions, evaluating and reporting actions and actions under other workstreams. These include:

- Establishing a governance and resource programme and a programme management and risk assessment framework
- Developing frameworks for evaluating and reporting climate change impacts
- Identifying and filling information gaps. (p.26)

Te Kaweka Takohaka mō te Hoiho

Purpose

'Hoiho should be able to go to sea to feed on abundant and good guality kai, and return safely to the whenua to breed, feed their young and socialise without facing human-induced threats.' (p.12)

Strategy (to achieve the purpose):

The approach is to focus on sustaining and restoring the health of the hoiho population by focusing on 20 strategic priorities, such as ensuring that accurate, usable and accessible data contributes to hoiho conservation. These strategic priorities are guided by six principles that set the foundation for how decisions will be made. (pp.14, 19-27)

Te Mana o te Taiao -Aotearoa New Zealand Biodiversity Strategy 2020

Purpose

'The vision we set out for this strategy is not only for the return of health to the natural world in a way that we can measure but also for the return of a health and vibrancy that we can feel, touch, smell and hear, as well as an emotional reconnection with nature.' (p.10 [out of 125])

Strategy (to achieve the purpose):

The approach is to focus on three pillars:

- · Getting the system right
- · Empowering action
- Protecting and restoring biodiversity. (p.43 [out of 125])

Procurement Strategy for Roading Activities, 2021/22-2023/24

Procurement Strategy for Roading Activities, 2021/22 - 2023/24

Purpose

'This strategy seeks to maximise the value for money through the engagement of adjacent road controlling authorities or their contractors to maintain our roads.' (p.6)

Strategy (to achieve the purpose):

The approach, as with the 2018 Strategy, is to seek the integration of routine maintenance of roads into the maintenance regimes of adjacent road controlling authorities if it can be expected to lead to value for money outcomes for the department's dispersed and disconnected roading. (p.12)

A Structured Decision-Making Approach for the Recovery of Kuaka/ Whenua Hou Diving Petrel (Pelecanoides whenuahouensis)

Purpose

'Maximise number of kuaka ... Maximise number of kuaka populations ... Kāi Tahu express rangatiratanga and exercise kaitiakitanga ... Minimise ecosystem impacts ... Maximise public appreciation ... Minimise costs of conservation management ... Minimise impacts on fisheries.' (p.8)

Strategy (to achieve the purpose):

The approach is to focus on seven workstreams:

- Permissions and funding
- Communications and advocacy
- Biosecurity
- Monitoring
- Best practice mitigation of light pollution
- Plant management
- Competition management
- Inter-island translocations. (pp.20-21)

Ngā Awa, DOC's Priority River Restoration Programme

Purpose

'Working together with our communities towards healthy, thriving rivers from source to sea ... River ecosystems and species thrive from mountain to sea ... Restored rivers enrich people's lives.' (p.1)

Strategy (to achieve the purpose):

The approach is a series of 'national actions', which fit under the following 'objective' categories:

- · River ecosystems and species thrive from mountains to sea
- Restored rivers enrich people's lives
- Collaborate with others
- Co-design and co-lead with iwi/hapū/whānau
- Recognise climate change. (p.2)

Te Rautaki Whakaora Kea | Kea Recovery Strategy 2024-2034

Purpose

'Kea are thriving throughout their natural range, from the mountains to the sea – ki uta ki tai. They live in harmony with humans and are valued and respected by all, for us and future generations – mō tātau, mō ngā uri whakaheke.' (p.11)

Strategy (to achieve the purpose):

The approach is to focus on three strategic priorities:

- · Understand kea
- Identify, prioritise and actively manage threats to kea
- Have kea live in harmony with humans.

These three overarching priorities are broken down into detailed goals within the strategy, and are supplemented by long-term intentions for five- and ten-year periods. (pp.12, 15, 17, 19, 21)

Predator Free 2050 Interim Implementation Plan 2024-2030

Purpose

'To establish a common programme of work for the main organisations responsible for implementing a predator free Aotearoa New Zealand.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on five main goals:

- · Have the tools and techniques to feasibly eradicate predators in diverse landscapes
- Have a clear and well-researched plan to achieve the Predator Free 2050 goal
- · Have an authentic Treaty partnership
- Have the support of New Zealanders
- Attract the investment needed to achieve Predator Free 2050. (p.9)

Critical Ecosystem Pressures on Freshwater Environments (CRESP): 4-year research strategy

Purpose

'[T]o provide strategic direction and inform annual investment priorities for research under DOC's CRESP programme for the next 4 years (2024–2027).' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on three main goals:

- · To deliver research that produces new evidence and data on the ecological responses of freshwater systems to changes in critical ecosystem pressures
- To contribute to how New Zealand might improve freshwater advocacy and management
- To work in partnership with Treaty partners and other organisations. (pp.2-3)

Te Ara Morehu: He rautaki whakaora kākāriki karaka l Kākāriki Karaka Recovery Strategy 2024-2034

Purpose

'Kākāriki karaka are established and thriving independently in the wild. This manu is a common sight in our native forests, and is sometimes even spotted in our urban green spaces as they move freely across the landscape.' (p.14)

Strategy (to achieve the purpose):

The approach is to focus on four strategic priorities:

- Strengthen relationships
- Safeguard captive populations
- Establish wild populations
- Sustain wild populations.

These four overarching priorities are broken down into detailed goals within the strategy, and are supplemented by long-term intentions for fiveand 20-year periods. (pp.15, 19, 21, 23, 25, 27)

Wāhine – E Rere Ana ki te Pae Hou: Women's strategy 2021-2025

Purpose

'[H]elp break the cycle of reoffending and improve the wellbeing and safety of women, their whānau, and our wider communities as well as contribute to intergenerational transformation.' (p.8)

Strategy (to achieve the purpose):

The approach is to implement an action plan that focuses on eight key areas:

- Transitioning through the prison system
- Ensuring safe and humanised treatment while in prison
- Improving prison environments
- Improving the health and wellbeing of women
- Working with whānau to strengthen relationships
- Improving staff training and recruitment
- Monitoring the outcomes for effectiveness
- Implementing a more effective assurance framework. (pp.20-23)

Te Aorerekura: The national strategy to eliminate family violence and sexual violence

Purpose

'[S]et out a framework to eliminate family violence and sexual violence, to drive government action in a unified way and harness public support and community action. It will also increase political and public sector accountability by setting out what the government is committing to do and how it will measure and report on progress.' (p.6 [out of 128])

Strategy (to achieve the purpose):

The approach is to implement several actions that fall under six 'shifts':

- · Towards strength-based wellbeing
- Towards mobilising communities
- Towards skilled, culturally competent and sustainable workforces
- Towards investment in primary prevention
- Towards safe, accessible and integrated responses
- Towards increased capacity for healing. (p.7 [out of 128])

Suicide Prevention and Postvention Action Plan

Purpose

'Our action plan represents our intention to take deliberate and targeted action to address the problem of suicide.' (p.10)

Strategy (to achieve the purpose):

The approach is to define several broad focus areas, each with corresponding actions:

- National leadership
- Using evidence to make a difference
- Developing the workforce
- Evaluation and monitoring
- Promoting wellbeing
- Responding to suicidal distress
- Responding to suicidal behaviour
- Supporting after a suicide. (p.12)

Disability Action Plan 2023-2027

Purpose

Provide:

- 'Equitable access and choices.
- Mana enhancing practice for all tāngata whaikaha Māori/ disabled people.
- Tāngata whaikaha Māori/disabled people led participation.' (p.15)

Strategy (to achieve the purpose):

The approach is to define key strategic focus areas and the broad ways to act on these. These are guided by consultation with tāngata whaikaha Māori/disabled people and their whānau, previous action plans and the Enabling Good Lives (EGL) framework adapted for the Corrections context.

Focus areas: national leadership; using evidence to make a difference; responding to disability support needs; developing the workforce; research and evaluation; and working with tangata whaikaha and their whānau. (pp.15, 18)

Ageing Well Action Plan

Purpose

'[O]lder people to live well, age well and have a respectful end of life, in age-friendly communities.' (p.11)

Strategy (to achieve the purpose):

The approach is to focus on a series of actions that fall under strategic focus areas developed for 2019–2022. These strategic focus areas are:

- National leadership
- Ageing well
- Acute and restorative care
- Living well with long-term conditions
- Supporting people with high and complex needs
- Respectful end-of-life care. (p.11)

Hōkai Rangi: Our organisational strategy

Purpose

'We make the community safer, by supporting people to leave us better and with brighter prospects.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on three main goals:

- Manage offenders in a way that improves the safety of the public, victims, staff and other offenders
- Reduce Māori over-representation by tailoring approaches to ensure the corrections system works for Māori
- Reduce reoffending by engaging offenders in rehabilitation, reintegration and support services. (p.6)

Archives 2057 Strategy

Archives 2057

Purpose

'We will be a trusted regulator of government information through the Public Records Act; experts in how to create, manage, preserve and discover information; and a gateway providing access to the nation's history, connecting people to their stories, rights and entitlements.' (p.4)

Strategy (to achieve the purpose):

The approach is to develop three key strategic areas within Archives New Zealand:

- Increasing transparency
- Creating effective and integrated systems
- Making people more aware of archives' relevance. (p.3)

Office of Ethnic Communities -Strategic Framework

Purpose

'Communities are welcoming and inclusive, diversity is valued, and all people participate in and contribute fully to society.' (p.1)

Strategy (to achieve the purpose):

The approach is to develop and build on measures and processes in three interconnected areas:

- Promoting positive relationships and trust with ethnic communities
- Creating better government-led outcomes
- Ensuring positive attitudes and dialogue in wider society. (p.1)

Rautaki mō tētahi Rāngai Kāwanatanga Matihiko | Strategy for a Digital Public Service

Purpose

'The public service is modern at its heart and all New Zealanders are thriving in a digital age.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on eight behaviours that will help transform the public service to be fit for the digital age. These behaviours are:

- · Acting as a unified public service
- Making people-centred decisions
- · Collaborating and co-creating
- Digital transformation in accordance with tikanga Māori
- Acting quickly and innovatively
- Prioritising value for money
- Fostering a learning environment, and
- Striving for an open, accountable public service. (pp.18-19)

DIA's Approach to Regulation of Anti-Money Laundering and Countering Financing of Terrorism

Purpose

'[B]uild the capability ... of reporting entities in detecting and preventing their businesses from being used by criminals and terrorists to hide or move money through the financial system, and support New Zealand and international efforts to make it difficult for criminals and terrorists to exploit financial systems.' (p.2)

Strategy (to achieve the purpose):

The approach is to:

- · Develop a comprehensive understanding of money laundering/terrorism financing (ML/TF) risks and typologies
- Build a culture of effective anti-money laundering/countering financing of terrorism compliance across the reporting entities the department supervises
- Identify reporting entities that are not adequately managing and mitigating their ML/TF risks and work with them
- Take action where there is serious or systemic non-compliance by reporting entities. (p.6)

Te Rautaki Matihiko mō Aotearoa | The Digital Strategy for Aotearoa

Purpose

'Aotearoa New Zealand's people, communities, economy, and environment are flourishing and prosperous in the digital era.' (p.6 [out of 67])

Strategy (to achieve the purpose):

The approach is to implement a series of initiatives under three areas:

- Mahi Tika Trust (e.g. putting guardrails
- Mahi Tahi Inclusion (e.g. ensuring digital content and services meet everyone's needs)
- Mahi Ake Growth (e.g. supporting data-driven innovation).

The action plan consists of 11 initiatives that will advance the Digital Strategy for Aotearoa in the short term. (pp.7, 19, 26, 34, 54, 56 [out of 67])

Strategy 2022-2025: A pathway to an Aotearoa where ethnic communities feel at home

Purpose

'[S]ets out the actions the Ministry will prioritise to achieve better outcomes for ethnic communities ... an Aotearoa New Zealand where everyone feels welcome, safe, included, and valued.' (p.13)

Strategy (to achieve the purpose):

The approach is to continue on with a series of actions that are already under way, and implement a number of new actions. These focus on:

- Improving representation of ethnic communities on public sector boards and committees
- Building communication channels between ethnic communities and government
- Improving accessibility to funding, training and government services
- · Addressing disparities in pay and education and job opportunities. (pp.42-49)

Regional Deals Strategic Framework

Purpose

'New Zealand's economic growth and the prosperity it affords to communities goes hand in hand with the growth of our regions.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on seven goals:

- · Building economic growth
- Delivering connected and resilient infrastructure
- Improving the supply of affordable and quality housing
- Greater regional and private sector collaboration
- Improved local government decision-making and funding
- Promoting innovative and collaborative ways of working between central and local government
- Ensuring resilient and sustainable cities and regions. (p.6)

Department of the Prime Minister and Cabinet – Te Tari o te Pirimia me te Komiti Matua

National Disaster Resilience Strategy l Rautaki ā-Motu Manawaroa Aituā

Purpose

'New Zealand is a disaster resilient nation that acts proactively to manage risks and build resilience in a way that contributes to the wellbeing and prosperity of all New Zealanders.' (p.3)

Strategy (to achieve the purpose):

The approach is to implement a package of initiatives to manage risks, improve rapid response services, and integrate and support community perspectives. Examples include implementing emergency management system reforms to improve how New Zealand responds to natural disasters and emergencies, and improving local government planning, including long-term plans, annual plans and asset management plans. (p.34)

New Zealand's Countering Terrorism and Violent Extremism Strategy

Purpose

'This strategy aims to secure Aotearoa New Zealand from the threat of terrorism and violent extremism, and to ensure that all communities, iwi, hapū, whānau and individuals feel secure.' (p.4)

Strategy (to achieve the purpose):

The approach is focused on reduction, through:

- Understanding the threat and being aware and informed
- Working together and prioritising partnerships to reduce the risk
- Focusing efforts and capabilities on effective, long-term prevention
- Being ready to respond and recover. (pp.10–11)

Secure Together | Tō Tātou Korowai Manaaki: New Zealand's national security strategy 2023-2028

Purpose

'Working towards our vision requires efforts focused on three outcomes:

- New Zealand protected from threats
- A resilient society, informed and engaged on national security challenges
- An effective national security system.' (p.iii)

Strategy (to achieve the purpose):

The approach is to:

- · Reform the national security community
- Cultivate and sustain a public conversation on national security
- Act early to prevent national security threats and build New Zealand's resilience
- Work together to foster collective understanding and approaches
- Lead an integrated approach. (pp.10, 12-13)

2024 National Fuel Plan: Planning and response arrangements for fuel supply disruptions and emergencies supporting plan [SP 04/24]

Purpose

'[T]o minimise the effects of a fuel supply disruption on New Zealand, whatever the cause, as far as reasonably practicable.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on three main goals:

- Provide an agreed planning framework between government agencies, CDEM Groups and fuel sector organisations to respond to major disruptions to fuel supplies
- · Document agreed communication and coordination arrangements at the national level for response operations during major disruption of fuel supplies
- Support the implementation of regional fuel supply arrangements. (p.2)

GCSB Strategy 2023-27

Purpose

'[T]o equip our customers with the intelligence and cyber resilience necessary to forecast and successfully navigate Aotearoa New Zealand's changing strategic environment.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on six main goals:

- Gain deeper insights into regional security
- Consolidate national cyber-security leadership
- Work with Treaty partners
- · Improve the ability to keep pace with emerging technology risks and opportunities
- Catalyse customers' use of intelligence
- Effectively meet security challenges and increased demand. (p.4)

Our Strategy: Improving oranga for current and future generations

Purpose

- 'The intergenerational oranga of the people of Aotearoa New Zealand is supported by [IRD's] active stewardship
- · Oranga increases when Inland Revenue works with other organisations
- People receive their entitlements
- Revenue is available to fund government programmes/services.' (p.2)

Strategy (to achieve the purpose):

The approach is to: keep customers at the centre; support people to create success; become Te Tiriti-based; maximise the benefits of being digitally enabled for customers and partners; add greater value through collaboration with partners to deliver services; actively take care of what they have now and ensure it is fit for the future; have an integrated planning and funding model; get the most value from data, analytics, information and knowledge; and have a fit-forpurpose change-delivery model. (p.2)

Multinational Enterprises: Compliance focus 2024

Purpose

'To create greater certainty for businesses as we collectively work to facilitate compliance.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on ten initiatives that influence multinational enterprise compliance. These include:

- Strengthening legislation
- Improving corporate tax governance
- Reducing compliance costs
- Improving corporate tax
- Expanding the tax treaty network.

These initiatives are guided by an overarching compliance approach which consists of four key principles: prioritisation, prevention, pragmatism and proportionality. (pp.9, 10, 13)

Cadastre 2034

Purpose

'A cadastral system that enables people to readily and confidently identify the location and extent of all rights, restrictions, and responsibilities related to land and real property.' (p.25)

Strategy (to achieve the purpose):

The approach is to implement 23 actions, including developing principles and a coherent policy direction and framework for defining the spatial extents of all land and real property-related rights, restrictions and responsibilities. (pp.36-38)

Regulatory Stewardship Strategy

Purpose

'[E]nable New Zealanders to enjoy access to our public land, benefit from private land ownership, and be sure that overseas investment in New Zealand's sensitive assets brings benefits to New Zealand.' (p.3)

Strategy (to achieve the purpose):

The approach is to manage four regulatory systems (property rights, property information, Crown land and overseas investment) through improving performance delivery, whilst mitigating regulatory underperformance or failure. (p.7)

New Zealand Geographic Board Strategy 2020-2025

Purpose

'Our purpose is to secure and celebrate New Zealand's unique identity through place names.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on four goals:

- · Naming places: officially name features and places so people can effectively communicate information about location and preserve New Zealand's heritage and culture
- Outreach: make information, including stories about place names, readily available
- Using official names: have organisations use official names so people use them in everyday life
- Improving capability and processes: continuously improve capability and processes to achieve LINZ's goals and objectives. (p.1)

Aotearoa New Zealand Antarctic and Southern Ocean Research Directions and Priorities 2021-2030

Purpose

Excellent and impactful science that addresses the urgent need to understand the role of Antarctica and the Southern Ocean in a globally-connected and rapidly changing environment and supports Aotearoa New Zealand's commitment to protecting Antarctica and the Southern Ocean.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on four priority research directions:

- Sea-level rise
- Connections between the cryosphere (frozen water), ocean and atmosphere
- Ecosystem dynamics
- Protection of Antarctic and Southern Ocean environments. (p.2)

Pacific Languages Strategy 2022-2032

Purpose

'Recognise the Value of Pacific Languages across Aotearoa ... Strengthen Pathways and Resources for Learning Pacific Languages and ... Create Environments for Pacific Languages to be Used more often, and in more Spaces.' (p.15 [out of 112])

Strategy (to achieve the purpose):

The approach is to focus on a series of tangible actions listed under each of the three key objectives above. They centre around increasing online content for Pacific language learning and increased opportunities to learn these languages throughout the education system, for example, by funding teacher training and introducing more Pacific language units in schools. (pp.38-43 [out of 112])

Pacific Wellbeing Strategy

Purpose

'[F]undamentally modify New Zealand public sector system conditions so that we can turn the tide on some of the inequities for Pacific communities ... to improve wellbeing outcomes for Pacific peoples.' (p.11)

Strategy (to achieve the purpose):

The approach is to:

- · Improve alignment and measurement of Pacific investment to drive enhanced delivery of Pacific wellbeing outcomes
- · Improve Pacific cultural capability, responsiveness and engagement approaches across government
- Establish and embed a community advisory and/or partnership model that utilises existing networks for collective design and action through partnership. (pp.13–14)

Fale mo Aiga -Pacific Housing Strategy 2030

Purpose

'Pacific peoples own and live in affordable, quality, fit-for-purpose, healthy homes that enhance their wellbeing.' (p.2 [out of 4])

Strategy (to achieve the purpose):

The approach is to focus on four key priorities:

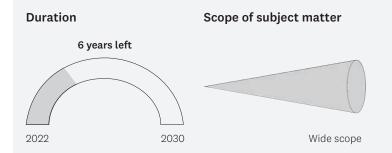

- Demand: Build intergenerational Pacific wealth through home ownership
- Supply: Build affordable, quality, healthy, fit-forpurpose homes for Pacific peoples
- · Pacific housing sector: Develop and grow the Pacific housing sector
- Housing system: Influence and strengthen the housing system to improve housing outcomes for Pacific peoples. (p.2 [out of 4])

Harvest Strategy Standard for New Zealand **Fisheries**

Purpose

'[P]rovide a consistent and transparent framework for setting fishery and stock targets and limits and associated fisheries management measures, so that there is a high probability of achieving targets, a very low probability of breaching limits, and acceptable probabilities of rebuilding stocks that nevertheless become depleted, in a timely manner.' (p.7)

Strategy (to achieve the purpose):

The approach is to focus on three core elements:

- A specified target about which a fishery or stock should fluctuate
- A soft limit that triggers a requirement for a formal, time-constrained rebuilding plan
- A hard limit below which fisheries should be considered for closure. (pp.7-9)

Research and Science Information Standard for New Zealand Fisheries

Purpose

'[S]takeholders and the public can be confident in the research and science information used to inform fisheries management decisions.' (p.1)

Strategy (to achieve the purpose):

The approach is to ensure science information is of sufficient quality to make fisheries management decisions, by applying five key principles to all information prior to use: peer review, relevance, integrity, objectivity and reliability. (p.6)

Animal Welfare Matters: New Zealand animal welfare strategy

Ministry for Primary Industries Manual Alex Maries

Purpose

'[E]veryone taking responsibility for the welfare of animals.' (p.7)

Strategy (to achieve the purpose):

The approach is to focus on:

- Better planning to prevent animal welfare problems
- Better animal husbandry, science and technology
- Clearer expectations and sanctions
- Measuring animal welfare performance. (p.2)

National Plan of Action for the Conservation and Management of Sharks 2013

Purpose

'To maintain the biodiversity and the long-term viability of all New Zealand shark populations by recognising their role in marine ecosystems, ensuring that any utilisation of sharks is sustainable, and [that New Zealand is recognised for] efforts in shark conservation and management.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on six goals and put in place a number of five-year objectives for each goal. The goals are:

- Biodiversity and long-term viability of shark populations
- Utilisation, waste reduction and the elimination of shark finning
- Domestic engagement and partnerships
- Non-fishing threats
- International engagement
- Research and information. (pp.3-4)

Wilding Conifer Management Strategy 2015-2030

Purpose

'Prevent the spread of wilding conifers, and contain or eradicate established areas of wilding conifers by 2030.'(p.8)

Strategy (to achieve the purpose):

The approach is to: clarify roles and responsibilities; gain funding for collective action and timely intervention; support fair allocation of costs associated with wilding conifer control; prioritise wilding conifer management; develop consistent monitoring and mapping; promote consistency in policy across organisations; co-ordinate operations; increase understanding of wilding conifer impacts; support ongoing research to reduce the cost of control and risk of establishment; and promote information sharing of best practice and technological gains in control methods. (pp.25-26)

Science Strategy | Rautaki Putaiao

Purpose

'Policy, regulation-setting, and decision-making must be based on robust, fit-for-purpose, up to date and comprehensive science and science evidence to be effective and credible.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on seven priorities:

- · Smart regulation
- Operational excellence
- International access
- Provenance and traceability
- Precision production and investment
- Enduring relationships
- Integrated information, insight and knowledge. (p.19)

Primary Sector Science Roadmap - Te Ao Tūroa

Purpose

'Science and technology accelerates innovation and growth for intergenerational economic and environmental sustainability of the primary sector, leading to increased wellbeing for all New Zealanders.' (p.9)

Strategy (to achieve the purpose):

The approach is to focus on eight priority areas:

- · Adding value
- Harnessing the value and power of data
- Innovating with advanced technology
- Innovating through genetics
- Innovating through Kaupapa Māori
- Protecting and sustaining resources
- Deriving value from complex systems
- Integrating people and values. (p.21)

New Zealand Sea Lion/Rāpoka Threat Management Plan

Purpose

'[P]romote the recovery and ensure the long-term viability of New Zealand sea lions, with the ultimate goal of achieving "Not Threatened" status.' (p.4)

Strategy (to achieve the purpose):

The approach is to focus on four workstreams:

- Engagement (including the establishment of a New Zealand sea lion/rāpoka forum, advisory group, and community liaison role within DOC)
- Direct mitigation
- Targeted research (such as research to better understand adult female nutritional stress and diet)
- Evaluation (such as conducting annual pup counts and tag re-sighting on the Auckland Islands). (pp.15-16)

National Fisheries Plan for Highly Migratory Species

Purpose

'[E]stablishes objectives for the management of New Zealand's HMS fisheries and strategies to achieve them. It also identifies performance indicators in order to monitor the achievement of these objectives.' (p.3)

Strategy (to achieve the purpose):

The plan establishes 10 objectives including:

- Supporting viable and profitable commercial highly migratory species (HMS) fisheries in New Zealand
- Maintaining and enhancing world class game fisheries in New Zealand fisheries waters
- Enhancing Māori interests (including customary, commercial, recreational and environmental)
- Maintaining sustainable HMS fisheries within environmental standards. (pp.11-13)

Cadmium and New Zealand Agriculture and Horticulture

Purpose

'To ensure that cadmium in rural production poses minimal risks to health, trade, land use flexibility and the environment over the next 100 years.' (p.2)

Strategy (to achieve the purpose):

The approach is to manage the risk of cadmium (a naturally occurring heavy metal in soils, of which phosphate fertiliser is the primary source) through research, monitoring, education and supporting practices which enable food standards to be met, and cadmium accumulation in soils to be controlled. (p.2)

National Plan of Action - Seabirds 2020

National Plan of Action Seabirds 2020

Purpose

'[W]ork towards zero fishing-related seabird mortalities.' (p.2)

Strategy (to achieve the purpose):

The approach is to:

- Avoid bycatch
- · Maintain healthy seabird populations
- Undertake research to manage direct effects of fisheries on seabirds
- Actively engage internationally to promote measures and practices that reduce impacts on New Zealand seabirds. (p.12)

Te Kaweka Takohaka mō te Hoiho

Purpose

'Hoiho should be able to go to sea to feed on abundant and good quality kai, and return safely to the whenua to breed, feed their young and socialise without facing human-induced threats.' (p.12)

Strategy (to achieve the purpose):

The approach is to focus on sustaining and restoring the health of the hoiho population by focusing on 20 strategic priorities, such as ensuring that accurate, usable and accessible data contributes to hoiho conservation. These strategic priorities are guided by six principles that set the foundation for how decisions will be made. (pp.14, 19-27)

National Inshore Finfish Fisheries Plan

Purpose

Ensuring the long-term health and resilience of ocean and coastal ecosystems, including the role of fisheries.' (p.10)

Strategy (to achieve the purpose):

The approach has five focus areas:

- · Achieving individual stock
- Enhancing benefits for tangata whenua and stakeholders
- Enabling integrated multi-stock management
- Improving local fisheries
- Improving environmental performance. (p.11)

Wallaby Strategy: Achieving a wallaby-free Aotearoa

Purpose

'By 2025 wallabies are contained within designated containment areas' as 'the first step towards the vision of eradication'. (p.4)

Strategy (to achieve the purpose):

The approach has seven objectives, including that:

- Wallaby management is effective, cost efficient and co-ordinated
- The ecology and impact of wallabies are understood, and effective surveillance, control and decision support tools are developed, accessible and used
- The rangatiratanga of whānau, hapū and iwi is actively enabled and supported
- New Zealanders are aware of the impacts of wallabies, support the management of wallabies, report sightings accurately and do not transport and release wallabies. (pp.6-7)

Urban Design Protocol

Purpose

'Making New Zealand towns and cities more successful through quality urban design.' (p.5)

Strategy (to achieve the purpose):

The approach is to:

- Create a national cross-sector commitment to quality urban design
- Provide a national resource of tools, actions and experiences
- Set up partnerships between government, the private sector and professionals
- Increase the awareness of quality urban design (including demonstrating its value). (p.5)

Aotearoa New Zealand's First National Adaptation Plan

Purpose

'To enable New Zealanders to prepare for and adapt to the impacts of climate change.' (p.12)

Strategy (to achieve the purpose):

The approach sets out many actions under three areas:

- Enable better risk-informed decisions
- Drive climate-resilient development in the right locations
- Focus on adaptation options, including managed retreat. (p.12)

Updated National Implementation Plan Under the Stockholm Convention on Persistent Organic Pollutants

Purpose

'[P]rotect human health and the environment from POPs [persistent organic pollutants], by implementing the Convention.' (p.13)

Strategy (to achieve the purpose):

The approach is to:

- · Comply with the convention and communicate the actions taken to implement it
- · Assess current progress in reducing the use of POPs in New Zealand
- Identify actions needed to eliminate and reduce the use of 'new POPs'
- Update and continue to implement New Zealand's action plan for dioxins and other unintentionally produced POPs
- Dispose of POP stockpiles and manage sites contaminated by POPs. (p.13)

Te Rautaki Para | Waste Strategy

Purpose

'[O]ur government sets out a long-term path to achieve the vision of Aotearoa New Zealand in 2050 as a low-emissions, low-waste society, embedding circular economy principles.' (p.6)

Strategy (to achieve the purpose):

The approach covers three areas:

- · Waste generation: reduce the amount of material entering the waste management system, by 10 per cent per person
- Waste disposal: reduce the amount of material that needs final disposal, by 30 per cent per person
- Waste emissions: reduce the biogenic methane emissions from waste, by at least 30 per cent. (p.25)

Responding to a Changing Climate: The Government's climate strategy

Purpose

'[C]reate a future where our communities and our economy thrive by producing fewer emissions and strengthening the way we prepare.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on five main goals:

- Delivering a fair and enduring system that prepares New Zealand and clarifies costs
- · Pricing emissions fairly and effectively to incentivise emissions reductions
- Doubling renewable energy by 2050 and installing 10,000 public charging points for electric vehicles
- · Providing tools and removing barriers for businesses to innovate
- Restoring biodiversity and investigating new ways of harnessing nature to remove emissions from the atmosphere. (p.2)

New Zealand's Second **Emissions Reduction** Plan 2026-30

Purpose

'[D]elivering on our climate change commitments while growing the New Zealand economy ... to meet the second emissions budget (EB2) for the period 2026-30.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on five main goals:

- Deliver resilient infrastructure and communities
- Ensure the climate transition is supported by credible markets
- Provide abundant and affordable clean energy
- Boost the economy through world-leading climate innovation
- · Address climate change using nature-based solutions.

These goals are supported by a range of policies and initiatives to reduce emissions, accelerate the uptake of new technologies and spark innovation. (p.7)

ngā Wāhine

Hīkina Whakatutuki

Vision Mātauranga

Purpose

'To unlock the innovation potential of Māori knowledge, resources and people to assist New Zealanders to create a better future.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on four research themes:

- Indigenous innovation (contributing to economic growth through distinctive research and development)
- Taiao (achieving environmental sustainability through iwi and hapū relationships with land and sea)
- Hauora/oranga (improving health and social wellbeing)
- Mātauranga (exploring indigenous knowledge and research, science and technology). (pp.8-17)

He Kai Kei Aku Ringa: The Crown-Māori economic growth partnership

Purpose

'[W]hānau, hapū, iwi and enterprises are actively seeking opportunities to sustainably develop their own resources (human and natural) to improve Māori economic performance.' (p.6)

Strategy (to achieve the purpose):

The approach has three themes:

- Education (Government and Māori work together to consider new models of compulsory schooling that better meet Māori needs)
- Natural resources (Government and Māori accelerate discussions on the development of natural resources)
- · Māori working together to drive growth (build relationships and manage logistics in export markets). (p.6)

Refugee Settlement: New Zealand resettlement strategy

Purpose

'Refugees are participating fully and integrated socially and economically as soon as possible so that they are living independently, undertaking the same responsibilities and exercising the same rights as other New Zealanders and have a strong sense of belonging to their own community and to New Zealand.' (p.3)

Strategy (to achieve the purpose):

The approach is in stages; only the first year is outlined. This includes putting in place measures that show whether Immigration New Zealand is making progress towards five goals. These include working to ensure the right support is available for refugees before they arrive in New Zealand and placing a strong focus on employment once they arrive. (p.9)

National Statement of Science Investment 2015-2025

Purpose

'A highly dynamic science system that enriches New Zealand, making a more visible, measurable contribution to our productivity and wellbeing through excellent science.' (p.7)

Strategy (to achieve the purpose):

The approach is broad (e.g. helping ensure the national science challenges deliver), but contains some detail (e.g. making the contestable fund a single, more agile and responsive fund). Note: The NSSI will be refreshed every three years to reflect progress and the funding needs of the science system. (pp.58, 64)

Health Research Strategy

Purpose

By 2027, New Zealand will have a world-leading health research and innovation system that, through excellent research, improves the health and wellbeing of all New Zealanders.' (p.6)

Strategy (to achieve the purpose):

The approach is to focus on four strategic priorities (and implement specific actions):

- Invest in excellent health research
- Create a vibrant research environment in the health sector
- Build and strengthen pathways for translating research findings into policy and practice
- Advance innovative ideas and commercial opportunities. (p.10)

Health and Safety at Work Strategy 2018-2028

Purpose

'Work is healthy and safe for everyone in New Zealand ... Everyone plays their part to manage health and safety risks effectively and proportionately.' (p.3)

Strategy (to achieve the purpose):

The approach concentrates on two goals. The first goal is to focus on what will make the biggest impact. It includes three priorities: better management of work-related health risks; businesses with greater need (including sectors with the highest harm and small business); and workers with greater need (such as Māori, Pasifika, migrant and seasonal, younger and older workers). The second goal is to build everyone's capability, with a focus on four priorities: leadership; worker engagement, representation and participation; health and safety practitioners; and data and insights. (p.2)

Conformance System Strategy

Purpose

'[S]ustain a trusted, reliable and high quality conformance system ... to protect communities and support commerce.' The conformance system is 'made up of specialist organisations that check if goods and service providers conform to standards or regulations'. (pp.3, 5)

Strategy (to achieve the purpose):

The approach is to focus on four areas:

- Organisational performance and governance
- · Regulatory quality and practice
- Partnerships for skills and value
- International connections. (pp.6-7)

Technical Barriers to Trade (TBT) Strategy

Purpose

'Reduce TBTs affecting New Zealand firms and increase international regulatory cooperation by maximising the outcomes of our TBT work programme.' (p.1)

Strategy (to achieve the purpose):

The approach is to provide a more effective TBT work programme across five focus areas:

- Negotiating free trade agreements
- Implementing free trade agreements
- Participating in the World Trade Organization **TBT Committee**
- Operating the World Trade Organization **TBT Enquiry Point**
- Evaluating the work programme.

Each focus area lists a number of related action points. (pp.10-19)

Combatting Modern Forms of Slavery

Purpose

'[T]o ensure that people are not exploited, either in New Zealand or overseas. We will continue to work together ... to eliminate forced labour, people trafficking and slavery.' (foreword)

Strategy (to achieve the purpose):

The approach is to strengthen three main objectives (prevention, protection and enforcement), and provide an updated framework outlining the actions and responsibilities of the relevant entities. (foreword)

MBIE's Regulatory Systems Stewardship Strategy 2023-2028

Purpose

'[C]reate and maintain regulatory systems that prevent harm and enable Aotearoa New Zealand's people, businesses, and future generations to thrive.' (p.14)

Strategy (to achieve the purpose):

The approach is to focus on six complementary, inter-related strategic responses, each with a number of workstreams. These strategic responses are:

- Embedding formal system leadership
- Lifting core people capability
- Enhancing the design of regulatory policy and implementation
- Embedding proactive system management
- Building knowledge to empower regulatory stewardship
- · Engaging with cross-system issues and opportunities. (pp.16-17)

Trading Standards Compliance Strategy

Purpose

'[W]ork with Aotearoa businesses to protect consumers and build market confidence by promoting a level playing field for business, which supports domestic and international trade.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on four strategic priorities:

- Review and learn from outcomes to enhance the regulatory setting
- · Work with stakeholders to establish fair and risk-based regulatory settings
- Identify a response based on the level of harm (or potential harm) and the characteristics of the parties involved
- Process complaints, proactively detect noncompliance and assess related risks.

These priorities are supported by three themes: education and engagement, consistency and trust, and knowledge and evidence-based. (p.5)

Employment Action Plan

Purpose

'[S]upport people ... to use their skills so that people can lead happier, healthier and more productive lives, contribute to the economy, support communities, businesses, industries and sectors and share in New Zealand's prosperity.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on three main goals:

- Help people get into and stay in work
- Support people to gain skills to succeed in work
- Improve employers' access to skills, employees' access to jobs, and enable students and employees to make informed decisions about investing in their skills.

These goals are supported by 12 actions including:

- Addressing persistent disadvantage
- Reforming the vocational education and training system
- Making changes to work visas. (pp.7-10)

Major Events Strategy

Purpose

'New Zealand is internationally recognised as a desirable major events destination, delivering worldclass events that generate economic and social outcomes, enhance our global reputation, and enrich the lives of New Zealanders.' (p.1)

Strategy (to achieve the purpose):

The approach is to apply five strategic priorities when investing in major events:

- Securing economic benefits
- Driving international exposure
- Building national pride
- Enhancing New Zealand's reputation
- Advancing government priorities. (p.1)

2024 National Fuel Plan: Planning and response arrangements for fuel supply disruptions and emergencies supporting plan [SP 04/24]

Purpose

'[T]o minimise the effects of a fuel supply disruption on New Zealand, whatever the cause, as far as reasonably practicable.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on three main goals:

- · Provide an agreed planning framework between government agencies, Civil Defence Emergency Management Groups and fuel sector organisations to respond to major disruptions to fuel supplies
- Document agreed communication and coordination arrangements at the national level for response operations during major disruption of fuel supplies
- Support the implementation of regional fuel supply arrangements. (p.2)

Space and Advanced **Aviation Strategy** 2024-2030

Purpose

'[S]upport the growth and development of New Zealand's space and advanced aviation sectors, contributing to enhanced productivity and a growing economy.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on five main goals:

- · Develop sovereign space capabilities with a national space mission
- Establish a world-leading regulatory environment for space and advanced aviation
- Unlock trade and investment
- Build an aerospace-capable workforce
- Accelerate aerospace innovation.

These goals are guided by four principles that inform New Zealand's international space engagements and development of space policies. (pp.7-8, 10-11)

Disability Strategy 2016-2026

New Zealand Disability Strategy 2016-2026 Disability Issues

Purpose

'New Zealand is a nondisabling society – a place where disabled people have an equal opportunity to achieve their goals and aspirations, and all of New Zealand works together to make this happen.' (p.6)

Strategy (to achieve the purpose):

The approach is structured around eight desired outcomes, summarised as: education; employment and economic security; health and wellbeing; rights protection and justice; accessibility; attitudes; choice and control; and leadership.

Each outcome has two parts: a vision of the future which sets the aspiration, and how this future will be attained. (pp.22-39, 46-47)

Whāia Te Ao Mārama 2018 to 2022 -The Māori Disability Action Plan

Purpose

'[T]āngata whaikaha pursue a good life with support ... Whāia Te Ao Mārama is aligned with the vision and principles of enabling good lives and transforming the disability support system, which offer disabled people greater choice and control over the supports they receive, so that they can plan for the lives they want.' (p.1)

Strategy (to achieve the purpose):

The approach is to work with tangata whaikaha (Māori with disabilities) to achieve six goals. These are that by 2022, tāngata whaikaha will:

- · Participate in the development of health and disability services
- Have control over their disability support
- Participate in te ao Māori
- Participate in their community
- Receive disability support services that are responsive to te ao Māori
- Have informed and responsive communities. (p.8)

Sign Language Strategy 2018-2023

Purpose

'[T]o enable Deaf and other NZSL users to learn and use NZSL naturally within a community of users, contributing significantly to its survival, sustainability and vitality.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on five internationally recognised language planning priorities: acquisition (the learning of a language by children and adults); use/access (the ability to use a language in any or all domains of society, including within whānau); attitude (the beliefs and opinions of language users and others towards that language); documentation (the systematic recording of language use for research and reference); and status (how a language is regarded by its users and others). Disability Action Plan 2019-2023

Purpose

'To deliver the eight outcomes in the New Zealand Disability Strategy 2016-2026.' (p.3)

Strategy (to achieve the purpose):

The approach involves 25 work programmes, to be delivered by 14 government agencies and their partners. These programmes are expected to be responsive to the needs and potential of all disabled people, including Māori, Pacific peoples, women and girls, disabled people with complex needs, and whānau. Nation of Curious Minds | He Whenua Hihiri i te Mahara: A national strategic plan for science in society

Purpose

'Encourage and enable better engagement with science and technology in all sectors of New Zealand.' (p.9)

Strategy (to achieve the purpose):

The approach is to focus on three strategic action areas:

- Enhancing the role of education (e.g. stronger links between STEM educators, learners, scientists and technologists)
- The public engaging with science (e.g. encouraging high-quality science)
- The science sector engaging with the public (e.g. ensuring scientists know how to make research accessible). (pp.23-31, 38)

The International Student Wellbeing Strategy

Purpose

'International students feel welcome, safe and well, enjoy a high quality education and are valued for their contribution to New Zealand.' (p.4)

Strategy (to achieve the purpose):

The approach is to support international students by increasing their safety and wellbeing both culturally and economically, ensuring they can access high-quality education, and are valued for their contribution to New Zealand. Specific examples include ensuring students have access to safe and reliable transport and to information about social, cultural and religious services. (p.7)

Learning Support Action Plan 2019-2025

Learning Support Action Plan

Purpose

'[A]n inclusive education system where every child feels a sense of belonging, is present, makes progress, where their wellbeing is safeguarded and promoted, where learning is a lifelong journey, and where children and young people with learning support needs get the right support at the right time.' (p.4)

Strategy (to achieve the purpose):

The approach is to target specialist learners' educational needs through six priority areas:

- Introducing Learning Support Coordinators in schools and kura
- Screening to enable teachers and other educators to identify and respond to children's learning support needs earlier
- · Strengthening early intervention
- Providing additional, more flexible supports for neurodiverse children and young people
- Increasing access to supports for gifted children and young people
- Improving education for children and young people at risk of disengaging. (p.6)

Te Rautaki Rawa Kura | The School Property Strategy 2030

Purpose

'[H]elp us carry out [our] stewardship role and improve the quality of school property for the enduring benefit of learners/ākonga and their families and whānau, teachers and school leaders, and local communities.' (p.6)

Strategy (to achieve the purpose):

The approach is to focus on a series of actions, including:

- · Establishing quality learning environment standards, carrying out assessments against these standards and investing in interventions where these are below standard
- · Implementing the construction category procurement strategy
- · Developing the asset management planning and investment frameworks
- Developing the asset management information systems. (p.36)

Ka Hikitia - Ka Hāpaitia: The Māori education strategy

Purpose

'Māori are enjoying and achieving education success as Māori, as they develop the skills to participate in te ao Māori, Aotearoa and the wider world.' (p.5)

Strategy (to achieve the purpose):

The approach is to provide an organising framework to prioritise cross-agency actions focused on achieving educational success for Māori over the long term. This approach is guided by five principles, for example, ensuring Māori learners and their whānau have a strong sense of belonging across the education system and giving practical effect to Te Tiriti o Waitangi in the education system. (p.5)

Tau Mai te Reo -The Māori Language in Education Strategy

Purpose

'Growing te reo Māori through education & growing education through te reo Māori to protect and promote the Māori language for future generations.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on seven key actions relating to Māori language in education:

- Stimulating demand among learners and whānau
- Giving clear directions to education services
- Growing the Māori language education workforce
- · Providing high quality resources to support teaching and learning
- Ensuring learners have access; providing system stewardship in support
- Supporting learners and whānau to build strong connections with Māori language in education services. (p.4)

Statement of National Education and Learning Priorities

Purpose

'[H]elping children and young people to attain their educational potential; preparing young people for participation in civic and community life and for work, and promoting resilience, determination, confidence, creative and critical thinking, good social skills and the ability to form good relationships; [and appreciate] .. Te Tiriti o Waitangi.' (p.1)

Strategy (to achieve the purpose):

The approach focuses on seven priority areas:

- Ensure places of learning are safe and inclusive
- Have high aspirations for every learner and support these aspirations
- Reduce barriers to education for all
- Ensure all learners have a strong foundation in literacy, language and numeracy
- Incorporate tikanga Māori and te reo Māori
- Strengthen staff teaching and leadership capabilities to support diverse students
- Collaborate with partners to support learners on their journey from education to work. (p.1)

Tertiary Education Strategy

Purpose

Sets out the 'long-term strategic direction for tertiary education, including economic, social, and environmental goals, and the development aspirations of Māori and other population groups'. (p.1)

Strategy (to achieve the purpose):

The approach focuses on eight priority areas to support tertiary students: ensure places of learning are safe and inclusive; have high aspirations for every learner and support these aspirations; reduce barriers to education for all; ensure all learners have a strong foundation in literacy, language and numeracy; incorporate tikanga Māori and te reo Māori; strengthen staff teaching and leadership capabilities to support diverse students; collaborate with partners to support learners on their journey from education to work; and enhance the contribution of research and mātauranga Māori in addressing local and global challenges. Te Aorerekura: The national strategy to eliminate family violence and sexual violence

Purpose

'[S]et out a framework to eliminate family violence and sexual violence, to drive government action in a unified way and harness public support and community action. It will also increase political and public sector accountability by setting out what the government is committing to do and how it will measure and report on progress.' (p.6 [out of 128])

Strategy (to achieve the purpose):

The approach is to implement several actions that fall under six 'shifts':

- Towards strength-based wellbeing
- Towards mobilising communities
- Towards skilled, culturally competent and sustainable workforces
- Towards investment in primary prevention
- Towards safe, accessible and integrated responses
- Towards increased capacity for healing. (p.7 [out of 128])

Hei Raukura mō te Mokopuna Strategy

Purpose

'[P]romote and enhance a mātauranga and kaupapa Māori understanding of te reo matatini and pāngarau across the curriculum. This is expected to result in increased well being, higher educational outcomes and qualifications, and better job opportunities for mokopuna.' (p.5)

Strategy (to achieve the purpose):

The approach is to achieve a set of goals, including:

- Reclaiming the meaning of te reo matatini to reflect its original intent and clarify its contribution to Te Tamaiti Hei Raukura
- Emphasising the importance of te reo matatini for meeting iwi aspirations for language revitalisation and regeneration
- Imagining the 'wāhanga ako of Te Marautanga o Aotearoa as tīrewa ako in Te Tīrewa Marautanga from understandings gained from the development of tīrewa ako for reo-ā-waha, pānui, tuhituhi, and pāngarau (kia rangatira te reo)'. (p.7)

International **Education Strategy** 2022-2030

Purpose

'[D]elivering good education outcomes for international students, global opportunities for domestic students and our educational institutions, as well as economic, social and cultural benefits for all of New Zealand.' (p.2)

Strategy (to achieve the purpose):

The approach is to apply two focus areas to three overarching goals. The focus areas are:

- Helping providers of international education to build back onshore offerings
- Building a new international education future.

The overarching goals are:

- Delivering an excellent education and student experience
- Ensuring international education is sustainable and resilient
- Developing global citizens. (pp.2, 7, 9-10, 13)

Connected Ako: Digital and data for learning

Purpose

'[T]o guide the digital and data direction of New Zealand Government education agencies.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on three areas, each with a series of critical initiatives:

- Connection: Te ao Māori in digital design; using data to make a difference; and safe and effective digital services
- · Commitment: Engaging widely and effectively, and showing future-focused leadership
- Capability: Transformation of learning, teaching, assessment and research. (p.8)

Action Plan for Pacific Education

Purpose

'[W]e will achieve system change to better support Pacific learners and families ... in Aotearoa, New Zealand.' (p.7)

Strategy (to achieve the purpose):

The approach is to focus on achieving five key system shifts, including:

- Working reciprocally with diverse Pacific communities
- Confronting systemic racism and discrimination in education
- Enabling every teacher, leader and educational professional to take coordinated action to become culturally competent with diverse Pacific learners
- Partnering with families to design education opportunities together with teachers, leaders and educational professionals
- Growing, retaining and valuing highly competent teachers, leaders and educational professionals with diverse Pacific heritage. (pp.8-9)

Approach to Improving Attendance in Schools

Purpose

'[A]ddressing the crisis that is New Zealand's current student attendance level in schools.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on four immediate goals:

- Shifting public attitudes and behaviours towards school attendance through public messaging
- Publishing more frequent attendance data
- Clarifying expectations around attendance to school Boards
- Ensuring local supports for schools in supporting attendance are effective and efficient.

These are supplemented with five further goals which will investigate the possibility of greater systematic change. (p.2)

Child & Youth Well-Being Strategic Action Plan 2021-2025

Purpose

'[S]ustainable development outcomes for children and youth who are missing out.' (p.1)

Strategy (to achieve the purpose):

The approach is for MFAT to invest in four areas:

- Improving governance systems for children and youth
- Empowering children and youth to participate in and inform development
- Providing health and learning services
- Realising youth potential. (p.1)

Human Rights Strategic Action Plan for International Development Cooperation 2021-2025

Purpose

'[A]dvancing the realisation of human rights, prioritising people and groups at risk of being left behind.' (p.1)

Strategy (to achieve the purpose):

The approach has four strategic focus areas:

- · Capacity and capability: duty bearers are supported to improve human rights monitoring and implementation
- People and groups: rights holders are empowered through inclusive development
- Communities in crises: this human rights-based approach is integrated in crises responses
- Quality delivery: human rights are mainstreamed throughout policy and programming. (p.2)

Aotearoa New Zealand Antarctic and Southern Ocean Research Directions and Priorities 2021-2030

Purpose

'Excellent and impactful science that addresses the urgent need to understand the role of Antarctica and the Southern Ocean in a globally-connected and rapidly changing environment and supports Aotearoa New Zealand's commitment to protecting Antarctica and the Southern Ocean.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on four priority research directions:

- Sea-level rise
- Connections between the cryosphere (frozen water), ocean and atmosphere
- Ecosystem dynamics
- Protection of Antarctic and Southern Ocean environments. (p.2)

International Climate Finance Strategy: Tuia te Waka a Kiwa

Purpose

'[Provide] a high-level, flexible framework to inform our climate finance investments for the 2022-2025 commitment period and beyond ... It also seeks to provide a common understanding of Aotearoa New Zealand's climate finance preferences to support discussions with a wide range of partners.' (p.12)

Strategy (to achieve the purpose):

The approach is to focus on four goals:

- · Accelerated climate change mitigation
- Enhanced resilience and adaptation to the impacts of climate change
- · Improved institutional capability and evidence-based decision making
- Leveraged investment to achieve greater climate impact. (pp.18-19)

Disarmament and Arms Control Strategy

New Zealand Disarmament and Arms Control Strategy

Purpose

'[T]o achieve a safer and more secure world, free from nuclear weapons and other weapons of mass destruction, where international humanitarian law is respected and civilians in conflict zones are protected from harm.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on three priority areas:

- Nuclear disarmament and non-proliferation
- Defending international humanitarian law and the protection of civilians
- Safeguarding the future against conflicts in outer space and autonomous weapons.

These priority areas are underpinned by seven objectives, including to play an active role in implementing the Vienna Action Plan and to promote the uptake and implementation of humanitarian disarmament treaties, norms and declarations. (pp.5, 7-9, 11-14).

Implementing Medicines New Zealand 2015 to 2020

Purpose

'We want New Zealanders, regardless of their ability to pay, to have access to safe, high-quality, effective medicines, and we want those medicines to be used in the best possible way. ... Implementing Medicines New Zealand (the Plan) is about the changes required to deliver on Medicines New Zealand [2007] (the Strategy).' (pp.iii, 1)

Strategy (to achieve the purpose):

The approach is to focus on advancing seven impact areas. Impact areas include enabling shared care through an integrated health care team; optimal use of antimicrobials; and competent and responsive prescribers. The aim is to implement a range of actions but be open to continuously changing priorities and actions as new ideas emerge. (pp.2-11)

Cancer Health Information Strategy

Purpose

'[T]o deliver comprehensive, accessible and accurate information to support the delivery of quality care across the cancer patient pathway' and to 'align with the National Health IT Plan and enable the New Zealand Cancer Plan 2015-2018'. (pp.1, 6)

Strategy (to achieve the purpose):

The approach is to focus on four interventions:

- · To establish a national framework for managing cancer data
- To standardise, digitise and make accessible cancer data at point of care
- To aggregate relevant patient and cancer service data into cancer information
- To analyse, produce and communicate cancer intelligence to stakeholders. (p.7)

Health Research Strategy

Purpose

By 2027, New Zealand will have a world-leading health research and innovation system that, through excellent research, improves the health and wellbeing of all New Zealanders.' (p.6)

Strategy (to achieve the purpose):

The approach is to focus on four strategic priorities (and implement specific actions):

- Invest in excellent health research
- · Create a vibrant research environment in the health sector
- · Build and strengthen pathways for translating research findings into policy and practice
- Advance innovative ideas and commercial opportunities. (p.10)

Faiva Ora 2016-2021 - National Pasifika Disability Plan

Purpose

'Pasifika disabled people and their families are supported to live the lives they choose.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on four priorities:

- Outcomes improve for Pasifika disabled children, youth and their families
- Pasifika communities are able to better engage with and support individuals with disabilities and their families to participate in their communities
- Disability services and supports meet the needs of Pasifika disabled people and their families
- Stakeholders work in partnership to address challenges experienced by Pasifika disabled people and their families. (pp.15-19)

Every Life Matters | He Tapu te Oranga o ia Tangata: Suicide prevention strategy 2019-2029 and suicide prevention action plan 2019–2024 for Aotearoa New Zealand

Purpose 'Reduced suicide rate ... Wellbeing for all.' (p.2)

Strategy (to achieve the purpose):

Building a strong system for suicide prevention includes focusing on four areas:

- Strengthening national leadership
- Using evidence and collective knowledge to make a difference
- Developing the suicide prevention workforce to have capacity and capability to respond
- Evaluating and monitoring Every Life Matters.

Key to supporting wellbeing is working to increase protective factors and reduce risk factors across the suicide prevention continuum, including promotion, prevention, intervention and postvention. (p.10)

COVID-19 Health and Disability System Response Plan

Purpose

'Success under this strategy means that COVID-19 is eliminated in New Zealand or reduced to a small number of cases, the large majority of which are "imported" and linked to international travel.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on eight priority populations (including Māori, Pacific peoples, older people, people with long-term conditions, people with disabilities, people with mental health conditions, people living in residential facilities and refugees and migrant community members) and eight planning areas (workforce, public health, hospitals, care in the community, laboratories, infection prevention and control, health and disability supply chain, and support for priority population) in accordance with the Government's COVID-19 elimination strategy. (pp.2, 12, 19)

Ola Manuia - Pacific Health and Wellbeing Action Plan 2020-2025

Manuia

Purpose

'Pacific people lead independent and resilient lives ... live longer in good health ... [and] have equitable health outcomes.' (p.17)

Strategy (to achieve the purpose):

The approach is threefold:

- To strengthen health knowledge and skills of Pacific people to support informed choices about their health and wellbeing
- To change the health and disability system to deliver more responsive, more accessible and high-quality services for Pacific families
- To strengthen actions to create environments that improve health equity for Pacific families. (p.18)

Whakamaua – Māori Health Action Plan 2020-2025

Purpose

'The overall aim of He Korowai Oranga is Pae ora – healthy futures for Māori ... Whānau ora, healthy families ... Mauri ora, healthy individuals ... Wai ora, healthy environment.' (p.18)

Strategy (to achieve the purpose):

The approach is to focus on eight priority areas for action:

- Māori-Crown partnerships
- · Māori leadership
- Māori health and disability workforce
- · Māori health sector development
- Cross-sector action
- Quality and safety
- Insights and evidence
- Performance and accountability. (p.27)

Kia Manawanui Aotearoa: Long-term pathway to mental wellbeing

Purpose

'[P]eople and whānau have their basic needs met, know how to strengthen their own mental wellbeing, and live in communities with diverse, well-integrated avenues for support when and where it is needed.' (p.8)

Strategy (to achieve the purpose):

The approach is threefold:

- A strong government mandate and commitment to transformation
- · A commitment to a collective approach and joint effort towards a shared vision
- A set of guiding principles that underpin how the Ministry will work, including a strong focus on achieving equity. (pp.32-34)

Smokefree Aotearoa 2025 Action Plan

Purpose

'By 2025, daily smoking prevalence is less than five percent for all population groups in New Zealand.' (p.6)

Strategy (to achieve the purpose):

The approach is to focus on six areas:

- · Ensuring Māori leadership and decision-making at all levels
- Increasing health promotion and community mobilisation
- Increasing evidence-based stop-smoking services
- · Reducing the addictiveness and appeal of smoked tobacco products
- Reducing the availability of smoked tobacco products
- Ensuring manufacturers, importers and retailers meet their legal obligations. (pp.16-27)

Te Aorerekura: The national strategy to eliminate family violence and sexual violence

Purpose

'[S]et out a framework to eliminate family violence and sexual violence, to drive government action in a unified way and harness public support and community action. It will also increase political and public sector accountability by setting out what the government is committing to do and how it will measure and report on progress.' (p.6 [out of 128])

Strategy (to achieve the purpose):

The approach is to implement several actions that fall under six 'shifts':

- · Towards strength-based wellbeing
- Towards mobilising communities
- Towards skilled, culturally competent and sustainable workforces
- Towards investment in primary prevention
- Towards safe, accessible and integrated responses
- Towards increased capacity for healing. (p.7 [out of 128])

Strategy to Prevent and Minimise Gambling Harm 2022/23 to 2024/25

Purpose

'[T]o reduce health inequities attributable to gambling harm for priority populations (Māori, Pacific peoples, Asian peoples and young people/rangatahi), and to better meet their needs.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on four objectives:

- Creating a full spectrum of services and supports
- Shifting cultural and social norms
- Strengthening leadership and accountability to achieve equity
- Strengthening the health and health equity of Māori, Pacific peoples, Asian peoples and young people/rangatahi. (p.41)

National HIV Action Plan for Aotearoa New Zealand 2023-2030

Purpose

'An Aotearoa New Zealand where HIV transmission is eliminated and all people living with HIV have healthy lives free from stigma and discrimination.' (p.12)

Strategy (to achieve the purpose):

The approach is to focus on four areas:

- Surveillance, information and knowledge systems
- Combination prevention and health promotion
- Testing and linkage to care
- Support for people living with HIV, including addressing stigma and discrimination. (p.19)

Ngā Pokenga Paipai me ngā Pokenga Huaketo mā te Toto: Te rautaki o Aotearoa 2023-2030 | Aotearoa New Zealand Sexually Transmitted and **Blood Borne Infection** Strategy 2023-2030

Purpose

'The purpose of this shared strategy for STIs and blood borne viruses is to improve collaboration, support collective action and set a unified strategic direction for the health agencies ... and the health and disability sector.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on four strategic directions:

- Surveillance, information and public health knowledge systems to drive action
- Results-focused health promotion and comprehensive prevention
- Equitable access to culturally safe, quality health care for testing and management
- Leading for an integrated, supported, consumer-focused system. (p.17)

Oranga Hinengaro System and Service Framework

Purpose

'[C]larifies what people should expect from the future system and services, and how services work together to meet people's needs ... it also provides guidance for change in system-wide planning and to inform nationally consistent access to services, equitable funding and monitoring.' (p.12)

Strategy (to achieve the purpose):

The approach is to focus on a series of system and service principles that guide seven critical shifts in the health sector. These shifts are to:

- · Actively deliver on Te Tiriti o Waitangi
- Design out inequities
- Build lived experience-led transformation
- Get in early to support whanau wellbeing
- Promote wellbeing and respond early when distress arises
- Connect services to work better
- Be responsive to needs. (pp.36, 40-46)

Health Strategy

Purpose

'[Set] the medium - and long-term direction for health and [identify] priority areas for change to improve health outcomes.' (p.10)

Strategy (to achieve the purpose):

The approach is to focus on six strategic priorities, including:

- · Responding to the voices of people and communities throughout the health system
- Developing services focused on preventing illness and delivering care closer to home
- Ensuring preparedness for future shocks and the best use of resources to manage the demand for health services over the long term
- Developing a diverse, skilled and confident health workforce. (p.10)

Pae Tū - Hauora Māori Strategy

Purpose

'[Update] the direction for improving the health and wellbeing of Māori ... Together with the New Zealand Health Strategy, [set] the overarching direction for the health system ... [Provide] the guiding framework by which health entities will uphold Te Tiriti and achieve Māori health equity.' (p.7)

Strategy (to achieve the purpose):

The approach is to focus on five priority areas:

- Enabling whānau, hapū, iwi and Māori community leadership, decision-making and governance at all levels
- Strengthening whole-of-government commitment to Māori health
- Growing the Māori health workforce and sector to match community needs
- Enabling culturally safe, whānau-centred and preventative primary health care
- Ensuring accountability for system performance for Māori health. (p.28)

Te Mana Ola -The Pacific Health Strategy

Purpose

'[S]et the key direction and long-term priorities to achieve equity in Pacific health and wellbeing outcomes over the next 10 years.' (pp.11-12)

Strategy (to achieve the purpose):

The approach is to focus on five priority areas:

- · Population health
- Disease prevention, health promotion and management for good health
- Workforce
- Access
- Autonomy and self-determination. (pp.11-12)

Rural Health Strategy

Purpose

'[Set] the direction for improving the health and wellbeing, both physical and mental, of New Zealanders living in rural communities over the next 10 years.' (p.6)

Strategy (to achieve the purpose):

The approach is to focus on five priority areas:

- · Considering rural communities as a priority group
- Prevention for a healthier future
- Services available closer to home for rural communities
- Supporting rural communities to access services at a distance
- A valued and flexible rural health workforce. (p.6)

Women's Health Strategy

Purpose

'[Set] the direction for improving the health and wellbeing of women over the next 10 years.' (p.8)

Strategy (to achieve the purpose):

The approach is to focus on four priority areas:

- A health system that works for women (overarching priority)
- Improving health care for issues specific to women
- Better outcomes for mothers, whanau and future generations
- Living well and ageing well. (p.8)

Strategic Framework for Managing COVID-19

Purpose

'[P]rotect the health and wellbeing of individuals and communities through a proportionate and equitable response to managing COVID-19 in Aotearoa New Zealand, while building resilience for future pandemics and other infectious diseases.' (p.11)

Strategy (to achieve the purpose):

The approach is to develop a toolkit of measures to manage COVID-19, organised into the categories below:

- Community public health measures
- Border measures (air and maritime)
- Support for individuals and communities
- System enablers.

These tools are then weighed up against a number of factors to determine which should be utilised and when. (pp.15-20)

New Zealand Pandemic Plan: A framework for action (Interim update - July 2024)

Purpose

'[T]o outline the health system and wider all-ofgovernment measures that relevant agencies will consider in response to a pandemic caused by a respiratory pathogen and to provide an overview of the activities they undertake to ensure NZ is adequately prepared.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on three overarching goals during a pandemic:

- · Minimise human health impacts and health service disruptions without increasing health inequities
- Enable society to function as normally as possible during and after the pandemic
- Minimise and mitigate economic consequences.

The six-phase planning strategy includes: 1. Plan For It; 2. Keep It Out; 3. Stamp It Out; 4. Manage It; 5. Manage It: Post-Peak; 6. Recover From It. (p.15)

Public Housing Plan 2021-2024 [Updated to 2025]

Purpose

'[T]o increase the number of newly built public houses and progressively decrease leases over time.' (p.1 [out of 8])

Strategy (to achieve the purpose):

The approach is to identify areas where population growth has exceeded new housing development, leading to rising rents and housing shortfalls. Focus area factors include: the sharp rise in housing costs; reliance on motels for emergency housing; overcrowding; population increases that have outpaced construction; infrastructure not able to support development; and housing deprivation. (p.5 [out of 8])

Te Tauākī Kaupapa Here a te Kāwanatanga mō te Whakawhanake Whare, Tāone Anō Hoki | Government Policy Statement on Housing and Urban Development

Purpose

'[A] multi-decade system strategy for housing and urban development. It will inform, influence and align activity across the system to respond to the challenges we face ... Everyone in Aotearoa New Zealand lives in a home, and within a community that meets their needs and aspirations.' (pp.5, 6)

Strategy (to achieve the purpose):

The approach is to focus on six areas:

- Ensure more affordable homes are built
- Ensure houses meet needs
- Ensure people can live in stable, affordable
- Support whanau to have safe, healthy affordable homes with secure tenure
- Re-establish housing's primary role as a home rather than a financial asset
- Plan and invest in our places. (p.24)

MAIHI Ka Ora: The national Māori housing strategy

Purpose

'[Drive] a whole of system approach....[Set] an expectation of cohesion across government agencies to accelerate Māori housing and wellbeing outcomes.' (p.11 [out of 84])

Strategy (to achieve the purpose):

The approach is to break up the Māori housing problem into six main components to focus on:

- · Māori-Crown partnerships
- Māori-led local solutions
- Māori housing supply
- Māori housing support
- Māori housing system
- Māori housing sustainability. (p.19 [out of 84])

Te Aorerekura: The national strategy to eliminate family violence and sexual violence

Purpose

'[S]et out a framework to eliminate family violence and sexual violence, to drive government action in a unified way and harness public support and community action. It will also increase political and public sector accountability by setting out what the government is committing to do and how it will measure and report on progress.' (p.6 [out of 128])

Strategy (to achieve the purpose):

The approach is to implement several actions that fall under six 'shifts':

- · Towards strength-based wellbeing
- Towards mobilising communities
- Towards skilled, culturally competent and sustainable workforces
- Towards investment in primary prevention
- Towards safe, accessible and integrated responses
- Towards increased capacity for healing. (p.7 [out of 128])

Maihi Karauna: The Crown's strategy for Māori language revitalisation 2019-2023

Purpose

'[T]he revitalisation of te reo Māori ... By 2040, 85 per cent of New Zealanders (or more) will value te reo Māori as a key element of national identity ... one million New Zealanders (or more) will have the ability and confidence to talk about at least basic things in te reo Māori ... 150,000 Māori aged 15 and over will use te reo Māori as much as English.' (pp.7, 11–14)

Strategy (to achieve the purpose):

The approach is for government, in partnership with Māori, to advance the revitalisation of te reo Māori by increasing its value and demand; improving learning capabilities; and providing opportunities to engage in its use in conjunction with the Maihi Māori strategy. This includes preparing a full cross-government implementation plan by September 2019 and reviewing the strategy before it expires in 2023. (pp.21-37)

MAIHI Ka Ora: The national Māori housing strategy

Purpose

'[Drive] a whole of system approach. ... [Set] an expectation of cohesion across government agencies to accelerate Māori housing and wellbeing outcomes.' (p.11 [out of 84])

Strategy (to achieve the purpose):

The approach is to break up the Māori housing problem into six main components to focus on:

- Māori-Crown partnerships
- Māori-led local solutions
- Māori housing supply
- Māori housing support
- Māori housing system
- Māori housing sustainability. (p.19 [out of 84])

Te Pae Tata -Te Rautaki Māori me te Mahere Mahi | Māori Strategy and Action Plan

Purpose

'To embed a Māori world view into our organisation that will honour our commitment as a Te Tiriti o Waitangi partner and prioritise the needs of whānau.' (p.7)

Strategy (to achieve the purpose):

The approach is to focus on three key shifts:

- Mana manaaki: a positive experience every time - earning the respect and trust of Māori
- Kotahitanga: partnering for greater impact forming genuine partnerships with Māori
- Kia takatū tātou: supporting long-term social and economic development - supporting Māori aspirations. (p.11)

Family Violence **Funding Approach**

Purpose

'[A] future where providers are sustainably funded and services are whānau-centred, outcomes-focused and integrated.' (p.4)

Strategy (to achieve the purpose):

The approach is to focus on four priorities:

- Having a whānau-centred approach to service delivery
- Setting sights on long-term recovery
- Giving communities universal support, how and when they need it
- Giving regions more support. (pp.15–18)

Pacific Prosperity: Our people, our solutions, our future

Purpose

'To rejuvenate the Ministry's delivery and engagement of services for Pacific peoples, families and communities, so they are safe, thrive and flourish in Aotearoa.' (p.13)

Strategy (to achieve the purpose):

The approach is to focus on three communities: Pacific peoples and families; staff and people who are providing services on behalf of the Ministry; and communities. Examples of actions include improving access to healthy and sustainable housing; improving current information capture, reporting and sharing processes; and better articulating the meaning of a 'Pacific provider service'. (pp.18-19)

Better Later Life | He Oranga Kaumātua 2019-2034

Purpose

'New Zealand embraces the opportunities that an ageing population and longevity brings.' (p.2 [out of 48])

Strategy (to achieve the purpose):

The approach is to focus on five key areas, and within each area, a set of goals and actions. The areas are:

- Achieving financial security and economic participation
- Promoting healthy ageing and improving access to services
- · Creating diverse housing choices and options
- Enhancing opportunities for participation and social connection
- Making environments accessible. (pp.11-17 [out of 48])

Campaign for Action on Family Violence: Framework for change 2019-2023

Purpose

'A safer New Zealand, where more men are violence free.' (p.9)

Strategy (to achieve the purpose):

The approach is to motivate and support long-term behaviour change and prevent intimate partner violence by disrupting and addressing some of the factors that are identified as root causes or drivers of harm, or are reinforcing factors. (p.9)

E Tū Whānau -Mahere Rautaki: Framework for change 2019-2024

Purpose

'Whānau are self-managing and resilient ... connected and feel like they belong ... have positive relationships in Te Ao Māori ... feel safe in their homes and communities ... are living healthy lifestyles ... are strengthened and participating in society [and] ... have increased economic independence and rangatiratanga.' (p.11)

Strategy (to achieve the purpose):

The approach focuses on four priority areas:

- Hapori development: Supporting whānau, hapū, iwi and communities to build capacity and capability to lead and sustain community level change
- · Whānau strength: Supporting wellbeing and relationships within whānau
- Tāne ora/Wāhine ora: Opportunities for healing, connection to culture and community
- Rangatahi development: Enabling youth engagement, education, leadership.

The approach is underpinned by Kaupapa Māori. (pp.4-5)

Pasefika Proud: Pathways for change 2019-2023

Purpose

'Pacific families and communities are safe, resilient and enjoy wellbeing.' (p.9)

Strategy (to achieve the purpose):

The approach is twofold. The first goal is mobilising Pacific communities, encouraging community leaders to speak out and take action against violence affecting Pacific peoples. The second goal is capability development to strengthen capacity to design, lead and deliver solutions for Pacific peoples. (pp.28-29)

Elder Abuse in Aotearoa: The proposed future strategy of Elder Abuse Response Services

Purpose

'[A]n Aotearoa where older people are supported to live abuse free and the prevalence of elder abuse and neglect is reduced. We also want all people who need and want help with elder abuse to be able to access support.' (p.10)

Strategy (to achieve the purpose):

The approach is for the strategy to be implemented in three phases, focusing first on stabilising, then strengthening, and finally growing the response services to deliver on long-term and sustainable solutions to reduce the occurrence of elder abuse. (p.13)

Te Aorerekura: The national strategy to eliminate family violence and sexual violence

Purpose

'[S]et out a framework to eliminate family violence and sexual violence, to drive government action in a unified way and harness public support and community action. It will also increase political and public sector accountability by setting out what the government is committing to do and how it will measure and report on progress.' (p.6 [out of 128])

Strategy (to achieve the purpose):

The approach is to implement several actions that fall under six 'shifts':

- Towards strength-based wellbeing
- · Towards mobilising communities
- Towards skilled, culturally competent and sustainable workforces
- Towards investment in primary prevention
- Towards safe, accessible and integrated responses
- Towards increased capacity for healing. (p.7 [out of 128])

Financial Capability in Aotearoa New Zealand

Purpose

'Financial capability services need to be:

- accessible for all
- sustainably funded
- delivered in the right way at the right time.'

Strategy (to achieve the purpose):

The approach is to identify three strategic priorities that inform the desired future state:

- Client and whānau-centred services
- Support systems and frameworks
- Cross-sector relationships.

Three phases have been developed to implement the future state:

- Shape preparing for change
- Stretch building relationships, capability, and a sustainable delivery model
- Strive a cohesive community working together for clients. (pp.16, 20-21)

Social Sector Commissioning 2022-2028 Action Plan

Purpose

'[T]ransform the way social supports and services are commissioned so they best support people, families and whānau to live the lives they value.' (p.6)

Strategy (to achieve the purpose):

The approach is to:

- Work on removing current barriers that make a relational way of commissioning difficult
- Build on existing initiatives and successes, and support major social reforms under way
- Use continuous learning, monitoring and information sharing to ensure change. (p.6)

Youth Plan: Voice, leadership, action

Purpose

'[T]o amplify youth voice in government policy and decision-making and ... increase opportunities for young people to lead their own lives, have their identities seen, valued, and respected.' (p.6 [out of 42])

Strategy (to achieve the purpose):

The approach is that actions will be designed and undertaken by government agencies, youth sector, and community sector partners between 2023 and 2028. The design and delivery of actions should specifically involve young people from the priority cohorts. (p.26 [out of 42])

The Child and Youth Strategy 2024-2027

Purpose

'[I]mprove the lives of children and young people in New Zealand ... reducing material hardship and intervening early to improve a wide range of outcomes across the life course.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on three priority areas:

- Support children and their families and whānau in the first 2000 days
- Reduce child material hardship
- Prevent harm against children.

The strategy also aims to adopt a social investment approach to ensure investment decisions are based on research, data and evidence of impact. (pp.4, 5, 9)

Rautaki Hangarau | Technology Strategy

Purpose

'[B]uilding long-term, strategic national infrastructure to support New Zealanders with effective, adaptable services for decades to come.' (p.4)

Strategy (to achieve the purpose):

The approach is to focus on six main goals:

- · Digital experience
- · Service enablement
- Unified ecosystem
- Enabling better insights
- Digital workplace
- · Digital workforce.

These goals are supplemented by five themes: decluttering the technology landscape and reducing technical debt; resilience; emerging technologies; accessibility; and sustainability. (pp.4, 8)

Hei Arataki -Ministry of Transport Māori Strategy

Purpose

'A transport system that enables Māori to flourish.' (p.1)

Strategy (to achieve the purpose):

The approach focuses on three goals:

- · Strengthening the cultural capabilities of staff so they can better engage with Māori partners
- Forming long-lasting partnerships
- Embedding tikanga Māori into policy design and advice to deliver outcomes for Māori. (p.1)

Transport Evidence Base Strategy

Purpose

'Ensure the transport sector has the right data, information, research and evaluation to deliver an evidence-based transport system that improves wellbeing and liveability.' (p.9 [out of 72])

Strategy (to achieve the purpose):

The approach is to integrate previous strategies and focus on five enablers: improving access; improving governance; investing in the right activities; facilitating collaboration; and developing capacity and capability. The intention is to apply all five enablers across the domain plan, the research strategy and the evaluation strategy. Both the domain plan and the research strategy have been incorporated into this strategy (they were separate strategies that have since been archived). (pp.4, 24, 28, 33 [out of 72])

Search and Rescue Strategic Plan 2021-2024

Purpose

'[E]nsure New Zealand provides effective search and rescue services for people in distress throughout New Zealand's search and rescue region in order to save lives.' (p.7)

Strategy (to achieve the purpose):

The approach is to focus on four goals:

- · A robust and integrated SAR (Search and Rescue) system
- Efficient and sustainable SAR organisations
- Capable SAR people
- SAR prevention. (pp.18-19)

Government Policy Statement on Land Transport 2024/25-2033/34

Purpose

'[T]o better support economic growth and to ensure all New Zealanders are provided with a well maintained and reliable transport network.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on four strategic priorities:

- · Economic growth and productivity
- Increasing maintenance and resilience
- Safety
- · Value for money.

This strategy also reintroduces the Roads of National Significance programme in aid of achieving these priorities. (pp.9, 11)

Maritime Security Strategy 2024

Purpose

'[S]ecure New Zealand's significant maritime economic, cultural and environmental interests ... deter adversaries, reduce harm to New Zealand communities and exert effective kaitiakitanga (guardianship) of the sea.' (p.4)

Strategy (to achieve the purpose):

The approach is to continue to focus on the three implementation priorities outlined in the 2020 Maritime Security Strategy:

- Enable comprehensive multi-agency response (achieved in 2023)
- Establish sector planning and assessment expectations
- · Coordinate investment across the sector and direct investment in systems and tools.

These priorities are guided by four overlapping pillars: understand; engage; prevent; and respond. (pp.22, 24, 27, 29, 36-37)

Road Safety Objectives 2024

Purpose

'[I]mprove road safety by targeting the highest contributing factors to fatal road crashes.' (p.2)

Strategy (to achieve the purpose):

The approach is to focus on four main goals:

- Deliver new and safe roading infrastructure
- Target the highest contributing factors to fatal crashes
- Ensure vehicle safety increases
- · Reset the approach to speed limits.

Actionable steps include introducing roadside oral fluid drug testing, reviewing penalties for traffic offences and managing some Police funding based on the delivery of speed and alcohol road policing activities. (pp.2, 5)

Information Management Strategy 2021-2024

Purpose

'Information is: Digitally managed by design in a safe, secure environment. Collected once. Easy to find, accessible, used to its maximum potential, in a minimum of systems, managed as a strategic asset, seamlessly and reliably.' (p.13)

Strategy (to achieve the purpose):

The approach is to improve information management by developing a framework to shape initiatives and projects that support business needs and legal obligations. (p.10)

Rautaki Mana Ārai | Customs Strategy 2023-2028

Purpose

'[P]rotect and promote New Zealand across borders ... [and] eliminate border and revenue risk. Our Values ... We do what's right ... We are guardians We value people ... We look forward.' (p.3)

Strategy (to achieve the purpose):

The approach is to focus on four strategic priority areas: people, partnerships, innovation and technology and data. Each area will have its own topic-specific strategy, with a senior leader as the sponsor. (p.7)

NZSIS Strategy 2024-2029

Purpose

'[P]rotect Aotearoa New Zealand as a free, open and democratic society for future generations by staying ahead of the threats we face.' (p.4)

Strategy (to achieve the purpose):

The approach is to focus on three main themes: delivering impact with and for others; improving ways of working; and utilising data and digital.

These themes are supported by seven goals:

- Maximising impact through relationships
- Fostering trust from New Zealanders and partners
- · Discovering unknown threats
- Providing a fantastic place to work
- Enabling an innovative organisation
- Experimenting with technology
- · Gathering expert data and digital capabilities. (pp.7, 8, 9, 10)

Te Aorerekura: The national strategy to eliminate family violence and sexual violence

Purpose

'[S]et out a framework to eliminate family violence and sexual violence, to drive government action in a unified way and harness public support and community action. It will also increase political and public sector accountability by setting out what the government is committing to do and how it will measure and report on progress.' (p.6 [out of 128])

Strategy (to achieve the purpose):

The approach is to implement several actions that fall under six 'shifts':

- · Towards strength-based wellbeing
- Towards mobilising communities
- Towards skilled, culturally competent and sustainable workforces
- Towards investment in primary prevention
- Towards safe, accessible and integrated responses
- Towards increased capacity for healing. (p.7 [out of 128])

Oranga Tamariki Action Plan 2022

Purpose

'[Drive] a shared accountability and monitoring framework across children's agencies to improve the wellbeing of Oranga Tamariki priority populations and prevent the need for them to come into care or be involved with the youth justice system.' (p.3 [out of 17])

Strategy (to achieve the purpose):

The approach is to focus on four results: good health, including mental wellbeing; positive housing conditions; access to good education; and support to grow, connect, and be independent.

The first steps to achieving these results are:

- Building an evidence-based picture of need
- Meeting children and young people's needs and building whānau resilience
- Community-led, regionally-enabled, centrallysupported prevention. (p.7 [out of 17])

Oranga Tamariki Disability Vision and Strategy

Purpose

'The mana of tāngata whaikaha me o ratou toa (disabled people and their champions) is enhanced by meeting their needs, upholding their rights and supporting their hopes and dreams.' (p.1)

Strategy (to achieve the purpose):

The approach consists of four shifts:

- · How we see disability: taking a whole-of-life approach
- Systems work for people: tāngata whaikaha me o rātou toa (disabled people and their champions) experience connected, rights based, consistent and transparent children's and disability systems
- Disability-confident and -competent workforce: the Oranga Tamariki workforce have the skills and expertise, including cultural competency, to work with tāngata whaikaha me o rātou toa
- Oranga Tamariki is safe and proactive: tāngata whaikaha me o rātou toa are listened to. (pp.2-3)

Pacific Strategy 2021-2024

Purpose

'All Pacific children are safe, loved and supported by loving families and connected to thriving communities in Aotearoa New Zealand.' (p.1)

Strategy (to achieve the purpose):

The approach is to focus on five objectives:

- Enabling and co-ordinating Pacific communities
- Providing Pacific tamaiti, anau and kainga with high quality social work practice
- Helping to progress Pacific staff into key leadership and practice roles by setting up career pathways and opportunities
- Informing practice, policies, and key projects with Pacific narratives, evidence, data and insights
- Investing in cross-agency collaboration. (p.1)

Kia Toipoto - Public Service Action Plan 2021-24

Purpose

'Making substantial progress towards closing gender, Māori, Pacific, and ethnic pay gaps ... Accelerating progress for wāhine Māori, Pacific women, and women from ethnic communities ... Creating fairer workplaces for all, including disabled people and members of rainbow communities.' (p.3)

Strategy (to achieve the purpose):

The approach is to:

- Prioritise transparency in agencies
- Ensure equal pay through monitoring
- Encourage gender and ethnic representation and leadership in the workplace
- Support career pathways and equitable progression opportunities
- Eliminate all forms of bias and discrimination in human resource systems
- Allow access to flexible-by-default working without affecting pay or progression. (p.4)

Fourth National Action Plan 2023-2024

Purpose

'[Maintain New Zealand's] high transparency, politically-neutral Public Service, and low levels of corruption ... [and support] reforms to increase openness, transparency, democratic participation, and government accountability.' (p.5)

Strategy (to achieve the purpose):

The approach is to focus on delivering on eight commitments, including:

- Adopting a community engagement tool
- Researching deliberative processes for community engagement
- Establishing an inclusive, multi-channel approach to the delivery of government information and services
- Designing and implementing a National Counter Fraud and Corruption Strategy. (pp.14-31)

Te Rautaki Ārahi i te Ratonga Tūmatanui o Aotearoa | The Leadership Strategy for New Zealand's **Public Service**

Purpose

'We want to create one Te Pae Turuki Public Service Leaders Group, unified by a common mission and spirit of service, leading together on system priorities and modelling exemplary Public Service leadership.' (p.10)

Strategy (to achieve the purpose):

The approach is to focus on three long-term aims:

- Building the team spirit of Te Pae Turuki PSLG, staying focused on the needs of New Zealanders
- Enhancing Te Pae Turuki PSLG capability to keep delivering for New Zealand
- Enabling Te Pae Turuki PSLG to respond with agility to changing government and joint priorities. (p.13)

Transforming the New Zealand Census of Population and Dwellings: Issues, options and strategy

Purpose

'[T]o produce censustype information from administrative sources, rather than by the current census approach, which takes a survey of the whole population.' (p.39)

Strategy (to achieve the purpose):

The approach is a four-phase approach over time to manage the high level of risk and to ensure continued production of quality population statistics. The strategy includes a proposed transforming census timeline up to the 2020 election; a detailed plan (see Appendix 4); and a promise of a review report in 2025 at the earliest. The short-term focus is on modernising the current census model to create efficiencies and reduce operational costs. (pp.5-6, 18, 39, 42)

Government Data Strategy and Roadmap 2021

Purpose

'[P]rovides a shared direction and plan for Aotearoa New Zealand's government data system.'

Strategy (to achieve the purpose):

The approach is to focus on four areas:

- · Data: Providing the right data at the right time
- Capability: Developing capability and skills within government to create, collect, manage, and use data
- · Leadership: Ensuring leadership, clear rules, and system settings are in place and are well understood
- Infrastructure: Building the infrastructure that enables effective data management and reuse.

The focus areas are to guide key initiatives over the next three to five years. (pp.10-11)

Thirty Year New Zealand Infrastructure Plan

THE THIRTY YEAR NEW ZEALAND

Purpose

'By 2045 New Zealand's infrastructure is resilient and coordinated and contributes to a strong economy and high living standards.' (p.11)

Strategy (to achieve the purpose):

The approach is to focus on:

- Developing a better understanding of the type and nature of services to deliver in the future
- · Improving asset management practices
- · Ensuring the right settings are in place to make better investment decisions in the future. (pp.46-48)

He Tirohanga Mokopuna 2021 - Combined Statement on the Long-Term Fiscal Position and Long-Term Insights Briefing

Purpose

'[A]nalyse key trends and their potential long-term fiscal impacts directly alongside a range of policy options available to address them.' (p.4)

Strategy (to achieve the purpose):

The approach is not to make policy recommendations on the 'optimal' policy option or package of options required to manage New Zealand's fiscal sustainability challenge, but to share this information for consideration and analysis by future governments. (p.41)

Glossary

Adaptation (climate intelligence scoring)

Responding to the effects of climate change (e.g. moving from impacted areas).

Archived GDS

The department responsible for the GDS has advised it is no longer active. Occasionally, a department retrospectively advises the Institute of a strategy that should have been included in a previous GDS Index, but is no longer active. In this situation, the GDS is included in the current GDS Index as 'active', then moved immediately to 'archived GDSs'. For this reason, it is not scored, and does not appear in the *Handbook*.

Basic response (climate intelligence scoring)

The GDS contains some discussion on climate change impacts and/or how it hopes to deliver better climate outcomes in terms of mitigation and/or adaptation but does not explain any detail (e.g. the GDS states it plans to do more research but does not explain what, when or how).

Both mitigation and adaptation (climate intelligence scoring)

Simultaneously responding to the causes and effects of climate change (e.g. reducing emissions while also moving from impacted areas).

Budget goals and objectives

The Government's overarching goals are generally set out in the *Budget Policy Statement*. However, there exist a wide range of terms used to describe the broader goals and objectives of Government.⁹

Capabilities

Soft skills (including existing relationships and in-house expertise). See also resources.

Climate intelligence

The GDS contains some form of climate intelligence (i.e. a basic or detailed response to climate change impacts)

Corporate document

A corporate document is defined as a regular public sector entity report such as a report on strategic intentions or an annual report, as required under ss 38 and 43 of the Public Finance Act 1989 respectively. Corporate documents also include performance improvement framework reviews (PIFs) and briefings to the incoming Minister (BIMs).

Criteria (GDS selection)

The criteria developed by the Institute to determine whether a document is a GDS.

Detailed response (climate intelligence scoring)

The GDS contains a detailed discussion of climate change impacts and how it will deliver better climate outcomes in terms of mitigation and adaptation (e.g. the GDS contains several clear and measurable next steps, explaining what, when and/or how).

Duration (GDS key data)

The length of time the strategy lasts, from beginning to end. If there is no start date given, the publication date is used. If there is no end date given, it is listed as NK. In some cases, a GDS may remain active after the stated end date has passed, in which case, the proposed completion date is stated as '(was initially YYYY)'.

Element (Transparency Scorecard)

An element is a characteristic that is considered of primary importance in the publication of a GDS. In the GDS Index, six high-level elements make up the Transparency Scorecard.

Explicit mention of a GDS

This is where either (i) the exact title of the GDS is stated, or (ii) the full title is not given or the subtitle is missing, but the supporting information and/or context makes it clear which GDS is being referred to.

Externally facing strategy (GDS selection)

An externally facing strategy considers matters outside of the general operations of the department.

Good strategy

Determining what makes a good strategy is a matter of judgement. One aim of the GDS Index is to invite departments to be more transparent, so that citizens can make their own assessments on the quality of strategy.

Government department

The term 'government department' refers to the list of entities found in Schedule 2, Part 1 of the Public Service Act 2020. The GDS Index reflects the list in the Schedule in terms of the department's name and order.

Since the commencement of the Act in 2020, four changes have been made to Schedule 2, Part 1. On 1 July 2022, Te Kāhui Whakamana Rua Tekau mā Iwa – Pike River Recovery Agency was disestablished. In 2024, the Ministry for Regulation, the Social Investment Agency and the Ministry of Disabled People (established in 2022) were added to Schedule 2 of the Public Service Act 2020.

Government department strategy (GDS)

A 'government department strategy' must:

- be a publicly available document that is published by a government department
- be a public-facing document that is written for the public to read
- 3. be an externally facing document (i.e. not written for internal management purposes)
- 4. be a strategic document that contains long-term thinking (i.e. it sets out the approach [the means] and the purpose [the ends] of the strategy)
- 5. be a national document (i.e. it excludes local and regional strategies)
- be a document that looks out at least two years or more, and
- 7. not be a corporate document (see definition opposite).

Government targets

Government targets are six-year aspirations set by the current Government and are expected to be delivered by 2030. The targets aim to achieve better results on public services and priorities that matter to New Zealanders.¹⁰

Implicit mention of a GDS (Transparency Scorecard)

This is where the GDS is indirectly mentioned in the report on strategic intentions or annual report (i.e. not word for word). The test is if there is some doubt as to whether the strategy is being referred to (e.g. the department's energy strategy).

Internally facing strategy (GDS selection)

A strategy document that focuses solely on the internal management and/or operations of a department (e.g. it focuses on the department's staff diversity and inclusion policies or the sustainability practices related to how the department manages its resources).

Jointly held GDS

A GDS that is owned and managed by two or more departments. This includes where a department is not the lead agency but is responsible and accountable for some or all aspects of the strategy's implementation. The extent to which a GDS is shared jointly between departments indicates the extent to which departments collaborate to achieve a shared goal, rather than operate in silos.

May issue (legislation)

The GDS is a voluntary requirement in legislation. Terms often used are 'may issue', 'may allocate responsibility for', or 'may approve'. For example, 'may approve' relates to two fisheries GDSs, where the GDSs themselves say they were developed under the Fisheries Act, but the Fisheries Act says 'May ... approve ... a fisheries plan', implying that the GDS may have been developed under the Fisheries Act.

Mention only (climate intelligence scoring)

The GDS mentions climate change and may discuss its impacts, but it does not go into any detail on how it hopes to deliver better climate outcomes in terms of mitigation and adaptation.

Merged (combined)

Where two documents are significantly interrelated (e.g. a strategy document and an implementation plan/action plan, or a strategy document and an amendment document), they are combined into one PDF and treated as a single GDS.

Mitigation (climate intelligence scoring)

Responding to the cause of climate change (e.g. reducing greenhouse gas emissions).

Narrow scope (scope scoring)

The nature of the subject matter discussed by the GDS relates to a group of individuals or species, or covers a specialised topic (e.g. hoiho penguin, syphilis).

No mention (climate intelligence scoring)

The GDS does not mention climate change at all.

Points (Transparency Scorecard)

Points are allocated to each sub-element. In the GDS Index there are 21 sub-elements. Seventeen of those are given four points each for a reviewer to score. Two sub-elements (6.2 and 6.3) are allocated six points each. The remaining two (sub-elements 1.3 and 3.3) are allocated eight points each. This additional weighting recognises the importance of these sub-elements. The highest possible total in the GDS Index is 96 points.

Purpose statement (the ends)

An aspirational future-focused statement that explains in a concise, unique, coherent and specific way what the strategy aims to achieve and provides an impetus for action (e.g. the purpose statement sets out what success looks like).

Rank (Transparency Scorecard)

The rank reflects where a specific GDS, department or sector sits when its Transparency Scorecard totals are compared to the average score of all GDSs, the average score of the department by which it is held, or the average score of its sector.

Regulatory Management System (RMS)

RMS is the set of policies, institutions, processes and tools used by central government to pursue and maintain good quality regulation. The responsibility for New Zealand's RMS was with The Treasury but has now moved to the newly established Ministry for Regulation. Some GDSs are specifically mentioned in legislation by name as being mandatory while others are less specific (see 'required' and 'may issue' in this glossary). Importantly, even when a GDS is not mentioned specifically by name in law, GDSs are one of the key tools of the RMS. This is because GDSs implement public policy set by Cabinet or in law. A good example is the Public Service Act which specifies that chief executives have responsibility for stewarding the legislation their agencies administer.¹¹

Rejected

A document is rejected when the Institute and the department conclude it does not meet the criteria, in which case it is never added to the GDS Index. In the rare case of a disagreement, the final decision is the Institutes's.

Required (legislation)

The GDS is a mandatory requirement in legislation. Terms often used are 'must' or 'shall'.

Resources

Physical hardware (including physical and financial assets). See also capabilities.

Reviewer (Transparency Scorecard)

A person who is employed by the Institute to read and then score each GDS in operation against the Transparency Scorecard.

Score (Transparency Scorecard)

The number of points a GDS has accumulated as a result of the scoring process.

Sector

The grouping of departments is based on the summary tables of the Estimates of Appropriations in the Treasury's Budget (in the *2024 GDS Index*, it is the 2024 Budget).¹² The introduction to each volume of the Estimates of Appropriations 2024/25 explains how Votes and departments have been grouped into sectors. The 2024 Budget sector groupings are:

- · Economic Development and Infrastructure
- Education and Workforce
- External
- Finance and Government Administration
- Health
- Justice
- Māori Affairs
- Natural Resources
- Social Services and Community.

Strategy horizon

The time frame the authors of the strategy contemplated when writing the strategy.

Strategic options

The range of options a government department might explore before deciding on the best approach. Exploring a range of strategic options often leads to a new and improved approach.

Strategy map

A visual illustration of the proposed strategy, usually on one page, showing the cause-and-effect relationships between the desired purpose and the choices made on how to achieve the strategy (e.g. types of goals/priorities/themes/actions capabilities/resources).

Strategy statement (the means)

The 'means' to an end. The unique approach a department has chosen to adopt to bring about change. It describes the choices made.

Sub-element (Transparency Scorecard)

In the GDS Index there are 21 sub-elements shared across six elements.

Transparency Scorecard

The lens through which each GDS has been assessed. The Transparency Scorecard is made up of six elements and 21 sub-elements.

Wide scope (scope scoring)

The nature of the subject matter discussed by the GDS relates to a broad range of demographics or species, and/or covers a generalised topic (e.g. seabirds, climate change).

Generally GDSs with a wide scope tend to be more strategic and high-level than narrow scope strategies. For example, a GDS focusing on the wellbeing of all New Zealanders (which would be considered to have a wide scope) may lead to development of a more specific strategy, such as a strategy focusing on the wellbeing of New Zealanders in aged care (which would be considered narrow in scope).

- 9 The goals and objectives of government are confusing. In addition to 'government targets', there are a range of other terms used to indicate the direction of public policy. Key terms in the Public Finance Act 1989 alone include:
 - 1. long-term objectives
 - 2. short-term intentions
 - 3. strategic objectives
 - 4. strategic intentions
 - 5. wellbeing objectives.

Other terms used in the 2024 Budget include:

- 6. overarching goals (in 2024, there are three)
- 7. (Government) priorities (in 2024, there are five). Treasury (2024). Budget Policy Statement 2024. [online], pp.1–2. Available at: https://www.treasury.govt.nz/publications/budget-policy-statement/budget-policy-statement-2024#budget-policy-statement [Accessed 5 Jan. 2025].
- 10 The DPMC website states: 'Government Targets will focus attention, resources and accountability on improving service outcomes. The Targets are intentionally ambitious to ensure New Zealanders get better results and the public services they deserve in health, education, law and order, work, housing and environment. Ministers and agency chief executives are accountable for delivery, and the Government expects the public service to dig deeply into root causes, to be innovative, and to be disciplined in directing resources to where they will have the greatest impact on outcomes.'

Department of the Prime Minister and Cabinet (DPMC) (2025). *Government Targets*. [online]. Available at: https://www.dpmc.govt.nz/our-programmes/government-targets [Accessed 20 Dec. 2024].
