Kia ora team,

OIA 2026/03: Ministerial Economic Security and Supply Chains Group and fuel stock challenges

Thank you for the attached response. We have one point of clarification.

In response to question 9, you noted that the *Stuff* article was misreported. However, we actually requested a copy of the consultation document(s). Could you provide and also clarify the next steps if the oil tickets are not honoured?

Please don't hesitate to ask any questions or points of clarification,

Many thanks,
Wendy
